Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS–

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or

- (g) the contract also provides for the sale of a business that is not a small business.

2 – Time for service

The cooling-off notice must be served–

- (a) if this form is served on you before the making of the contract– before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract– before the end of the second clear business day from the day on which this form is served.

Note–

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that –

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 – Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

- (4) For a brief description of some of the matters that need to be considered before purchasing a strata unit, see Division 3 of this Schedule.

**SCHEDULE - DIVISION 3****COMMUNITY LOTS AND STRATA UNITS****Matters to be considered in purchasing a community lot or strata unit**

The property you are buying is on strata or community title. There are **special obligations and restrictions** that go with this kind of title. Make sure you understand these. If unsure, seek legal advice before signing a contract. For example:

Governance

You will automatically become a member of the **body corporate**, which includes all owners and has the job of maintaining the common property and enforcing the rules. Decisions, such as the amount you must pay in levies, will be made by vote of the body corporate. You will need to take part in meetings if you wish to have a say. If outvoted, you will have to live with decisions that you might not agree with.

If you are buying into a mixed use development (one that includes commercial as well as residential lots), owners of some types of lots may be in a position to outvote owners of other types of lots. Make sure you fully understand your voting rights, see later.

Use of your property

You, and anyone who visits or occupies your property, will be bound by rules in the form of **articles or by-laws**. These can restrict the use of the property, for example, they can deal with keeping pets, car parking, noise, rubbish disposal, short-term letting, upkeep of buildings and so on. Make sure that you have read the articles or by-laws before you decide whether this property will suit you.

Depending on the rules, you might not be permitted to make changes to the exterior of your unit, such as installing a television aerial or an air-conditioner, building a pergola, attaching external blinds etc without the permission of the body corporate. A meeting may be needed before permission can be granted. Permission may be refused. Note that the articles or by-laws **could change** between now and when you become the owner: the body corporate might vote to change them. Also, if you are buying before the community plan is registered, then any by-laws you have been shown are just a draft.

Are you buying a debt?

If there are unpaid contributions owing on this property, you can be made to pay them. You are entitled to **know the financial state of the body corporate** and you should make sure you see its records before deciding whether to buy. As a prospective owner, you can write to the body corporate requiring to see the records, including minutes of meetings, details of assets and liabilities, contributions payable, outstanding or planned expenses and insurance policies. There is a fee. To make a request, write to the secretary or management committee of the body corporate.

Expenses

The body corporate can **require you to maintain your property**, even if you do not agree, or can carry out maintenance and bill you for it.

The body corporate can **require you to contribute** to the cost of upkeep of the common property, even if you do not agree. Consider what future maintenance or repairs might be needed on the property in the long term.

Guarantee

As an owner, you are a **guarantor** of the liabilities of the body corporate. If it does not pay its debts, you can be called on to do so. Make sure you know what the liabilities are before you decide to buy. Ask the body corporate for copies of the financial records.

Contracts

The body corporate can make contracts. For example, it may engage a body corporate manager to do some or all of its work. It may contract with traders for maintenance work. It might engage a caretaker to look after the property. It might make any other kind of contract to buy services or products for the body corporate. Find out **what contracts the body corporate is committed to and the cost**.

The body corporate will have to raise funds from the owners to pay the money due under these contracts. As a guarantor, you could be liable if the body corporate owes money under a contract.

Buying off the plan

If you are buying a property that has not been built yet, then you **cannot be certain** what the end product of the development process will be. If you are buying before a community plan has been deposited, then any proposed development contract, scheme description or by-laws you have been shown could change.

Mixed use developments - voting rights

You may be buying into a group that is run by several different community corporations. This is common in mixed use developments, for example, where a group of apartments is combined with a hotel or a group of shops. If there is more than 1 corporation, then you should not expect that all lot owners in the group will have equal voting rights. The corporations may be structured so that, even though there are more apartments than shops in the group, the shop owners can outvote the apartment owners on some matters. Make enquiries so that you understand how many corporations there are and what voting rights you will have.

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring**, **gas installation**, **plumbing** and **appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool** and/or **spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Does the council hold details of any development approvals relating to:

- commercial or industrial activity at the land; or
- a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

NO

Description of the nature of the development(s) approved:

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- *the approval of development by a council does not necessarily mean that the development has taken place;*
- *the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Harry Gunn, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

7. General Business / Maintenance:

- a) **Manchurian Pear Trees:** Members discussed the retention of the Manchurian Pear Trees planted along the length of the driveway and agreed to retain the trees at this time rather than remove and replant with alternative foliage. It was noted that the trees provide a screening from the boundary fence as well as the neighbouring property however, as the roots are lifting some of the driveway pavers, Members had considered prior to this meeting to replace the trees with something that has a less invasive root system.

MOTION CARRIED

- b) **Garden Proposal:** Members reviewed the garden proposal to amend the section of the garden along the driveway where the Manchurian Pear Trees are currently planted and after further discussion, Members agreed to consider planting some ground cover underneath the trees. The Owner of Unit 3 offered to investigate some ground cover options and inform Members in due course.

MOTION CARRIED

- d) **Boundary Fence:** Members discussed the condition of the existing boundary fence adjacent to the Manchurian Pear Trees with the view to possibly replacing the fence as rust is evident at the base of the panels. After further discussion, Members agreed as an interim measure, to install a rail horizontally along the middle of the panels to prevent the panels from blowing through during high winds. The Owner of Unit 1 had obtained a price from the grounds' Contractor in the amount of \$420.00 to install the rail and the Owner of Unit 3 offered to obtain a quote to paint the fence and rail to match. Members agreed to this as an interim measure given the fence may possibly be replaced in the future should the neighbouring property Owner develop the site.

MOTION CARRIED

- e) **Boundary Fence – Unit 7:** Members discussed the boundary fence replacement at the rear of Unit 7 which was recently carried out by the builder developing the neighbouring property in 87 Cliff Street Glengowrie. The Owner of Unit 7 informed the meeting that this as this has been completed using a different colour fence however, the builder had also agreed to paint the Corporation's side of the fence in the same colour to match the existing colour scheme; to be carried out in due course.

- f) **Grounds' Maintenance:** Members confirmed the ongoing grounds' Maintenance work being carried out at the property, noting that the Owner of Unit 1 provides the Contractor with information of extra works requiring to be attended to at each visit. Members also noted that all are very happy with their current Contractor and the level of service being provided.

- g) **Electricity Reimbursement – Unit 1:** Members discussed the electricity reimbursement payable to the Owner of Unit 1 for the supply of electricity for the common lighting. Noting this being an existing arrangement for annual reimbursement, the Owner of Unit 1 proposed increasing the reimbursement due to price increases in electricity coming into effect from the 1st July. Members agreed to increase the reimbursement for the electricity from \$120.00 up to \$180.00.

In addition to the electricity being supplied by Unit 1, Members discussed other lighting options which could be installed along the driveway such as solar lighting to which the Owner of Unit 5 offered to follow up and provide further information to Members.

The following is a summary of decisions and resolutions resolved by the Corporation. For precise wording the relevant minutes should be consulted.

AGM 28/06/2023

Unit 5 garage ceiling: At the current understanding of the cause of damage, no insurable event has created the need to undertake these works, but rather age/ wear and tear. This ceiling is an Owners private subsidiary area. General repairs and maintenance within a unit or subsidiary are generally the responsibility of the unit Owner. This changes where the cause of the damage relates to an insurable event such as water damage, and then a claim is able to be lodged on the Building policy which incorporates both unit and Owner areas.

Where insurance is not possible, the ceiling as mentioned would be under normal circumstances an Owner responsibility, however there has been some discussion from Members that similar repairs may have historically been funded by the Strata and sets a precedent.

To clear this up for all future incidents, the group is asked to meet and vote on whether ceiling maintenance with-in a Unit or subsidiary will be funded by the Strata (where there is no insurance claim), or by the unit Owner. Should the group agreed to fund all future ceiling repairs as a maintenance item, the group will need to consider the strata being able to raise sufficient funds for those repairs as they arise. The group will then also look at the quotes and how to fund this project if accepted as a strata matter. Members by proxy voted unanimously to make ceiling repairs the responsibility of the Strata.

It was noted that, if a smoke alarm or smoke alarms are not fitted in each unit, the Corporation is guilty of an offence for which a maximum penalty of \$750 applies. It was agreed that, should the Corporation be fined due to an owner's failure to install a suitable smoke alarm in their unit, the Corporation will recover from that owner all costs incurred.

PDS & FSG: Copies of all product disclosure and Financial service guides for your Insurer can be easily located by visiting: <https://www.stratarama.com.au/general-information-and-pds/>

Contents & Landlord Protection covers: Stratarama advise the group that the Building policy contains neither contents nor landlord protection. The legal/ Public liability covers applied to the building also do not extend to the inside of a Lot/ unit. It is advisable for the Members to individually source these covers even during periods where the unit may be unoccupied. Tenant and Owner contents include such items as carpet, light fittings and curtains. Some options for these covers can be found via the Stratarama website: <https://www.stratarama.com.au/landlord-and-contents-insurance/>

Should Unit Owners require contents or Landlord protection policies privately, Stratarama is pleased to provide the following links as options for you. 6. General Business / Maintenance:

a) Grounds' Maintenance: Members discussed the current arrangement relating to ongoing grounds' maintenance where Members continue to maintain the front gardens to their individual Units whilst noting it is common property. The grounds' contractor currently attends on an as needed basis to maintain the garden areas along the driveway (common property) and if any work is carried out to the garden areas located directly to the front of any of the Units, it was agreed that this section would continue to be the responsibility of the Unit Holder.

Termites: Members note that the responsibility to inspect, treat and maintain (including termite damage repairs) is the responsibility of the Corporation. The Corporation may elect to undertake a termite inspection.

Authorised vs Non-approved Repairers: The Corporation utilise the services of SMATA – Contractor Compliance to check, report and monitor the insurances, ABN, licenses and registrations of Contractors used on this site. This has been set to reduce the Corporations potential liability in this area. If the Corporation wishes to use a Contractor that is not SMATA-CC approved, Stratarama can be instructed by the Office Bearers in writing to do so. It is noted that the Owner may be personally liable for any loss, damage, defective work or public liability claim made, involving any unapproved Contractor.

7. **Administrative Fund Budget:**

The budget for the coming period was presented by the Manager. After further discussion on the annual budget amount, it was resolved that the budget be accepted with contributions being set annually at **\$14,000.00 (increased by \$1,000.00)**.

It was further ratified that the ongoing annual reimbursement of \$120.00 to D Fenoughty of Unit 1 for the common property electricity supply is to continue.

MOTION CARRIED

8. **Sinking Fund Budget:**

The Manager advised that under existing legislation, any Corporation consisting of 7 units or more must undertake a sinking fund analysis for non-recurrent expenses which may be incurred. This analysis should forecast the upcoming 3 years for groups of 7+ units and 5 years for groups of 20 or more.

The budget for the coming period was presented by the Manager. It was resolved that the proposed budget be accepted with contributions being set annually at **\$2,500 (retained)**.

Contributions will be raised quarterly according to unit entitlement, as per the budget schedule. The Manager advised Members that a Sinking fund projection for 10 years can be obtained from a Quantity Surveyor where requested by the Corporation. There is no requirement on Members to obtain a Quantity Survey Sinking forecast, nor for Members to act upon any budget presented. Stratarama takes no responsibility for any forecast provided by Stratarama direct or decisions made by the group when setting a sinking fund contribution.

13. **Any Other Business:**

a) Pet Approvals: Members discussed the upcoming change with the Residential Tenancies Act 1995 where pets cannot be unreasonably refused and the concern by Members if any of the rented Units would have to agree to pets. The Manager informed the meeting that the Strata Titles Act 1988 is superior and that the standard Articles remain the same relating to pet approvals. Any Owners or Tenants must apply to the Strata Corporation in the first instance to keep a pet at the premises and are assessed on a case by case basis.

b) Public Liability: Members sought clarification on the extent of coverage for public liability to which the Manager informed the meeting that the public liability cover on the building policy relates to the common property only whereas if any repairs were to be undertaken within a Unit, the liability would come under the Contractors insurance.

c) Solar Lighting: Members raised that there is a lack of light along the driveway and is making visibility difficult at night especially in the winter months. After further discussion, Members agreed to install some solar lighting along the driveway to which I Pearce of Unit 5 to investigate some solutions and arrange the installation of standalone lighting to the driveway.
