Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired.

If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

To the purchaser:

Right to cool-off (section 5)

1 - Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS -

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2 - Time for service

The cooling-off notice must be served -

- (a) if this form is served on you before the making of the contract - before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract - before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 - Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 - Methods of service

The cooling-off notice must be -

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:
74 Brighton Road, Glenelg East SA 5045
(being the vendor's last known address); or
- (c) transmitted by fax or email to the following fax number or email address:

(being a number or address provided to you by the vendor for the purpose of service of the notice); or
- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:
74 Brighton Road Glenelg East SA 5045

being the agent's address for service under the *Land Agents Act 1994*

an address nominated by the agent to you for the purpose of service of the notice

Note - Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that -

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing;
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 - Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than -

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase -

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommends that you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring**, **gas installation**, **plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

BUILDING INDEMNITY INSURANCE

Section 7(1) (c)

Any approved building work undertaken on the property the subject of Building Indemnity Insurance.

| Approval No. | Insurer | Policy Issued | Contract Date | Builder | Person Insured | Liability Limitations | Description of insured building work |
|--------------|---------|---------------|---------------|------------------------|----------------|-----------------------|--------------------------------------|
| 110/00221/15 | QBE | 07/07/2015 | 07/08/2015 | GRS Associates Pty Ltd | C AND J ROSE | \$1078329.00 | SINGLE DWELLING |

Note: Building Indemnity insurance is not required for –

- (a) Domestic building work for which approval under the *Building Act 1971* or a development authorisation under the *Development Act 1993* was not required; or
- (b) Minor domestic building work (see section 3 of the *Building Work Contractors Act 1995*); or
- (c) Domestic building work commenced before 1 May, 1987; or
- (d) Building work in respect of which an exemption from the application of Division 3 of Part 5 of the *Building Work Contractors Act 1995* applies under the *Building Work Contractors Regulations 1996*; or
- (e) Building work in respect of which an exemption from the application of division 3 of Part 5 of the *Building Work Contractors Act 1995* has been granted by the Minister under section 45 of that Act.

Does the council hold details of any development approvals relating to –

- (a) commercial or industrial activity at the land; or
- (b) A change in the use of the land or part of the land (within the meaning of the *Development Act 1993*)?

No

Note:

The question relates to information that the council for the area in which the land is situated may hold. If the council answers “YES” to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A “YES” answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It is should be noted that –

- (a) the approval of development by a council does not necessarily mean that the development has taken place;
- (b) the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
