### Preliminary

#### To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

#### Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

\* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

**PART B – PURCHASER'S COOLING-OFF RIGHTS AND PROCEEDING WITH THE PURCHASE**

**To the purchaser:**

**Right to cool-off (section 5)**

**1 – Right to cool-off and restrictions on that right**

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS–

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

**2 – Time for service**

The cooling-off notice must be served–

- (a) if this form is served on you before the making of the contract– before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract– before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

**3 – Form of cooling-off notice**

The cooling-off notice must be in writing and must be signed by you.

**4 – Methods of service**

The cooling-off notice must be–

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:

236 Esplanade, Seacliff SA 5049

**Note–**

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that –

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

**5 – Effect of service**

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

**Proceeding with the purchase**

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and

- (a) storage, handling or disposal of waste or fuel or other chemicals (other than in the ordinary course of domestic activities)?
- (b) importation of soil or other fill from a site at which –
  - (i) an activity of a kind listed in paragraph (a) has taken place; or
  - (ii) a prescribed commercial or industrial activity (see item 1(2) above) has taken place?

If **YES**, give details of all activities that the vendor is aware of and whether they have taken place before or after the vendor acquired an interest in the land:

---

(3) Is the vendor aware of any dangerous substances ever having been kept at the land pursuant to a licence under the *Dangerous Substances Act 1979*?

NO

If **YES**, give details of all dangerous substances that the vendor is aware of and whether they were kept at the land before or after the vendor acquired an interest in the land:

---

(4) Is the vendor aware of the sale or transfer of the land or part of the land ever having occurred subject to an agreement for the exclusion or limitation of liability for site contamination to which section 103E of the *Environment Protection Act 1993* applies?

NO

If **YES**, give details of each sale or transfer and agreement that the vendor is aware of:

---

(5) Is the vendor aware of an environmental assessment of the land or part of the land ever having been carried out or commenced (whether or not completed)?

NO

If **YES**, give details of all environmental assessments that the vendor is aware of and whether they were carried out or commenced before or after the vendor acquired an interest in the land:

---

**Note—**

These questions relate to details about the land that may be known by the vendor. A **"YES"** answer to the questions at items 2(1) or 2(2) may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

A **"YES"** answer to any of the questions in this item may indicate the need for the purchaser to seek further information regarding the activities, for example, from the council or the EPA.

**3—Licences and exemptions recorded by EPA in public register**

Does the EPA hold any of the following details in the public register:

- (a) details of a current licence issued under Part 6 of the *Environment Protection Act 1993* to conduct any prescribed activity of environmental significance under Schedule 1 of that Act at the land?  
NO
- (b) details of a licence no longer in force issued under Part 6 of the *Environment Protection Act 1993* to conduct any prescribed activity of environmental significance under Schedule 1 of that Act at the land?  
NO
- (c) details of a current exemption issued under Part 6 of the *Environment Protection Act 1993* from the application of a specified provision of that Act in relation to an activity carried on at the land?  
NO
- (d) details of an exemption no longer in force issued under Part 6 of the *Environment Protection Act 1993* from the application of a specified provision of that Act in relation to an activity carried on at the land?  
NO

NO
- (h) details of a licence issued under the repealed *Waste Management Act 1987* to produce prescribed waste (within the meaning of that Act) at the land?  
NO

**Note—**

These questions relate to details about licences and exemptions required to be recorded by the EPA in the public register. If the EPA answers "YES" to any of the questions—

- in the case of a licence or exemption under the *Environment Protection Act 1993*—
  - the purchaser may obtain a copy of the licence or exemption from the public register on payment of the prescribed fee; and
  - the purchaser should note that transfer of a licence or exemption is subject to the conditions of the licence or exemption and the approval of the EPA (see section 49 of the *Environment Protection Act 1993*); and
- in the case of a licence under a repealed Act—the purchaser may obtain details about the licence from the public register on payment of the prescribed fee.

A "YES" answer to any of these questions may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

The EPA will not provide details about licences to conduct the following prescribed activities of environmental significance (within the meaning of Schedule 1 Part A of the *Environment Protection Act 1993*): waste transport business (category A), waste transport business (category B), dredging, earthworks drainage, any other activities referred to in Schedule 1 Part A undertaken by means of mobile works, helicopter landing facilities, marinas and boating facilities or discharges to marine or inland waters.

The EPA will not provide details about exemptions relating to—

- the conduct of any of the licensed activities in the immediately preceding paragraph in this note; or
- noise.

Does the EPA hold any of the following details in the public register in relation to the land or part of the land:

- (i) details of a notification under section 103Z(2) of the *Environment Protection Act 1993* relating to the termination before completion of a site contamination audit?  
NO
- (j) details of records, held by the former South Australian Waste Management Commission under the repealed *Waste Management Act 1987*, of waste (within the meaning of that Act) having been deposited on the land between 1 January 1983 and 30 April 1995?  
NO

**Note—**

These questions relate to details required to be recorded by the EPA in the public register. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the public register on payment of the prescribed fee.

**5—Pollution and site contamination on the land—other details held by EPA**

Does the EPA hold any of the following details in relation to the land or part of the land:

- (a) a copy of a report known as a "Health Commission Report" prepared by or on behalf of the South Australian Health Commission (under the repealed *South Australian Health Commission Act 1976*)?

YES

- (b) details (which may include a report of an environmental assessment) relevant to an agreement entered into with the EPA relating to an approved voluntary site contamination assessment proposal under section 103I of the *Environment Protection Act 1993*?

NO

- (c) details (which may include a report of an environmental assessment) relevant to an agreement entered into with the EPA relating to an approved voluntary site remediation proposal under section 103K of the *Environment Protection Act 1993*?

NO

- (d) a copy of a pre-1 July 2009 site audit report?

NO

- (e) details relating to the termination before completion of a pre-1 July 2009 site audit?

NO

**Note—**

These questions relate to details that the EPA may hold. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the EPA (on payment of any fee fixed by the EPA).

**6—Further information held by councils**

Does the council hold details of any development approvals relating to—

- (a) commercial or industrial activity at the land; or  
(b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993* or the *Planning, Development and Infrastructure Act 2016*)?

NO

**Note—**

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

## 7—Further information for purchasers

### Note—

The purchaser is advised that other matters under the *Environment Protection Act 1993* (that is, matters other than those referred to in this Statement) that may be relevant to the purchaser's further enquiries may also be recorded in the public register. These include:

- details relating to environmental authorisations such as applications, applicants, locations of activities, conditions, suspension, cancellation or surrender of authorisations, disqualifications, testing requirements and test results;
- details relating to activities undertaken on the land under licences or other environmental authorisations no longer in force;

- other details prescribed under the *Environment Protection Act 1993* (see section 109(3)(l)).

Details of these matters may be obtained from the public register on payment to the EPA of the prescribed fee.

- an environment performance agreement, environment protection order, clean-up order, clean-up authorisation, site contamination assessment order or site remediation order has been registered on the certificate of title for the land; or
- a notice of declaration of special management area in relation to the land has been gazetted; or
- a notation has been made on the certificate of title for the land that a site contamination audit report has been prepared in respect of the land; or
- a notice of prohibition or restriction on taking water affected by site contamination in relation to the land has been gazetted,

it will be noted in the items under the heading *Environment Protection Act 1993* under the Table of Particulars in this Statement. Details of any registered documents may be obtained from the Lands Titles Registration Office.

## Notices

Notices are printed under arrangement with organisations having some potential interest in the subject land. You should contact the identified party for further details.

### **Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)**

#### Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

#### Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment ( For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

#### ***Land Tax Act 1936 and Regulations thereunder***

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

#### ***Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations***

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

#### ***Landscape South Australia 2019***

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

**Note:**

**The question relates to information that the council for the area in which the land is situated may hold. If the council answers “YES” to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the**

council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It is should be noted that –

- (a) the approval of development by a council does not necessarily mean that the development has taken place;
- (b) the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.
