(Section 7 Land and Business (Sale and Conveyancing) Act 1994)

Contents

- Preliminary
- Part A – Parties and land
- Part B – Purchaser's cooling off rights and proceeding with the purchase
- Part C – Statement with respect to required particulars
- Part D – Certificate with respect to prescribed inquiries by registered agent
- Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

5 – Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

REQUEST FOR INFORMATION

We refer to your request and now attach particulars and documentary material which Council must supply pursuant to the provisions of the Local Government Act and the Land and Business (Sale and Conveyancing) Act 1994.

PRESCRIBED INFORMATION***Important Information to Note*****General Advice**

The Section 7 of the Land and Business (Sales & Conveyancing) Act 1994 provides information relating to a property as prescribed by legislation. Included in the search by Council is the zoning of the land and where applicable, the more recent development consents for the property.

Intended purchasers of land are requested to refer to the relevant provisions of the Planning and Design Code and contact the Development Services team on 08 8408 0558 before doing anything on the said property, if they are proposing to, for example, construct a new dwelling, undertake alterations or additions to a dwelling, construct a tennis court or swimming pool, build retaining walls, undertake boundary realignments or land divisions.

The Planning and Design Code (the document that guides development within the Council) can be viewed online at <https://code.plan.sa.gov.au>. Information sheets relating to development applications and various land uses are also available from the Department of Planning, Transport & Infrastructure or from Council's web site at www.ahc.sa.gov.au.

Development in the Mt Lofty Ranges has more development controls and restrictions compared to other areas of the State primarily due to:

- bushfire protection
- watershed protection
- retention of native vegetation

This advice is provided for your information to promote a better understanding of the requirements for development and other obligations in the Adelaide Hills Council area.

Developments prior to 1998

Council records for developments prior to 1998 may be incomplete due to differing standards of recordkeeping applied in the various Hills Councils prior to amalgamation and formation of the Adelaide Hills Council in 1998.

Building Indemnity Insurance

This is insurance taken out by a building work contractor when performing domestic building work costing \$12,000 or more that requires Council approval. This insurance protects the current building owner and future owner if:

- work has not been completed or faulty work has not been rectified; and
- the builder dies, disappears or is declared bankrupt.

Claims can usually be made up to five years from the date the building work was completed.

PRESCRIBED INFORMATION**Particulars relating to Environment Protection****Further information held by Councils**

Does the Council hold details of any development relating to -

(a) commercial or Industrial activity at the land; or

No

(b) a change in the use of the land or part of the land (within the meaning of the Development Act 1993 or the Planning, Development and Infrastructure Act 2016)

Development Consents Attached

No

Note:- The question relates to information that the Council for the area in which the land is situated may hold. If the Council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the Council (on payment of any fee fixed by the Council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993 and that assessments of remediation of the land may be required at some future time.

It should be noted that-

- (a) The approval of development by Council does not necessarily mean that the development has taken place;
 - (b) The Council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

Regulations under the Electricity Trust Act make it the responsibility of the owner or an agent of the owner to check that any new building or alterations to existing buildings do not cause that building or alterations to it to encroach upon clearances to power lines described in the Regulations. Building near overhead supply lines sometimes creates dangerous situations while underground cables are often covered in such a way that maintenance becomes impossible. Failure to observe the clearances described in the Regulations will incur a penalty and may make you liable to pay damages to ETSA.
