- (a) at settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255; and

- 18.7 The parties must do everything reasonably necessary to effect settlement:
- (a) electronically on the next business day, or

give, or direct its subscriber to give, all those documents and items and any such keys to the purchaser or the purchaser's nominee on notification by the electronic lodgment network operator of settlement.

- 19.4 If the particulars of sale specify that the supply made under this contract is of land on which a 'farming business' is carried on:

- 24.4 The amount is to be deducted from the vendor's entitlement to the contract consideration. The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.

- 24.5 The purchaser must:
- (a) The engage a legal practitioner or conveyancer (“representative”) to conduct all the legal aspects of settlement, including the performance of the purchaser’s obligations under the legislation and this general condition; and

- 24.9 The vendor must provide the purchaser with such information as the purchaser requires to comply with the purchaser’s obligation to pay the amount in accordance with section 14-200 of Schedule 1 to the Taxation Administration Act 1953 (Cth). The information must be provided within 5 business days of request by the purchaser. The vendor warrants that the information the vendor provides is true and correct.

- 25.4 The remaining provisions of this general condition 25 apply if the purchaser is or may be required to pay the Commissioner an \*amount in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) because the property is \*new residential premises or \*potential residential land in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this general condition 25 is to be taken as relieving the vendor from compliance with section 14-255.
- 25.5 The amount is to be deducted from the vendor’s entitlement to the contract \*consideration and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14- 255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth).   - (c) otherwise comply, or ensure compliance, with this general condition;
- despite:
- (d) any contrary instructions, other than from both the purchaser and the vendor; and

- (a) settlement is conducted through an electronic lodgment network; and
- (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.

25.9 The purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the *Taxation Administration Act 1953* (Cth), but only if:

- (a) so agreed by the vendor in writing; and
- (b) the settlement is not conducted through an electronic lodgment network.

However, if the purchaser gives the bank cheque in accordance with this general condition 25.9, the vendor must:

- (c) immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and
- (d) give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.

25.10 A party must provide the other party with such information as the other party requires to:

- (a) at settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255; and
- (b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) is the correct amount required to be paid under section 14-250 of the legislation

25.12 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount, except to the extent that:

- (a) the penalties or interest arise from any failure on the part of the vendor, including breach of a warranty in general condition 25.11; or
- (b) the purchaser has a reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth).

# Due diligence checklist

## What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](https://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

### Urban living

#### ***Moving to the inner city?***

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

#### ***Is the property subject to an owners corporation?***

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

### Growth areas

#### ***Are you moving to a growth area?***

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

### Flood and fire risk

#### ***Does this property experience flooding or bushfire?***

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

## Rural properties

### ***Moving to the country?***

If you are looking at property in a rural zone, consider:

Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.

Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.

Do you understand your obligations to manage weeds and pest animals?

### ***Can you build new dwellings?***

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

### ***Is there any earth resource activity such as mining in the area?***

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

## Soil and groundwater contamination

### ***Has previous land use affected the soil or groundwater?***

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

## Land boundaries

### ***Do you know the exact boundary of the property?***

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

## Planning controls

### ***Can you change how the property is used, or the buildings on it?***

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

### ***Are there any proposed or granted planning permits?***

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

## Safety

### ***Is the building safe to live in?***

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

## Building permits

### ***Have any buildings or retaining walls on the property been altered, or do you plan to alter them?***

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

### ***Are any recent building or renovation works covered by insurance?***

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

## Utilities and essential services

### ***Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?***

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

## Buyers' rights

### ***Do you know your rights when buying a property?***

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

## GENERAL

- A This MCP has been prepared by Lendlease in order to regulate the siting, form and design of residential development in accordance with the Endorsed Building Envelope Plan, so as to create a high level of amenity for occupiers of Lots within the Plan of Subdivision.
- B The provisions of this MCP are incorporated into one or more restrictions created by the Plan of Subdivision.
- C This MCP, which includes the Endorsed Building Envelope Plan, provides siting details for a particular Lot.
- D This MCP imposes restrictions on the design and siting of Buildings, which in some cases may be different to those of the Building Regulations and Planning Scheme.
- E Where the siting restrictions in this MCP are contrary to Regulations 409, 410, 411, 412, 414, 415, 416, 417, 419, 420 and 421 of the Building Regulations, no consent and report of the relevant council is required, as this MCP has been prepared with regard to Regulation 406 of the Building Regulations.
- F The restriction created by the Plan of Subdivision does not exempt a Lot which has an Edge Boundary from the need for report and consent in relation to Regulations 414, 415 and 416 to the extent that they relate to that Edge Boundary.
- G Some of the matters addressed in this MCP may not be covered by the Building Regulations.

## 1 DEFINITIONS

In this MCP:

- 1.1 **"Endorsed Building Envelope Plan"** means the plan attached as Annexure A to this MCP and which forms part of this MCP and which specifies the building Setbacks that apply to each specific Lot to which this MCP applies (being Lots 601 to 655 inclusive). This may also specify other siting related matters for a particular Lot. In respect of a Building that does not require a Planning Permit, this MCP and the Endorsed Building Envelope Plan comprise an approved building envelope in terms of Regulations 402 and 406 of the Building Regulations.
- 1.2 **"Building"** has the same meaning as in the Building Act.
- 1.3 **"Building Act"** means the *Building Act 1993* as amended from time to time.
- 1.4 **"Building Permit"** means a building permit in terms of the Building Act.
- 1.5 **"Building Regulations"** means the *Building Regulations 2006* as amended from time to time.
- 1.6 **"Build to Boundary"** means a requirement indicated on the Endorsed Building Envelope Plan whereby a Building may be built abutting a side boundary, which has a build to boundary line marked on the Endorsed Building Envelope Plan.
- 1.7 **"Clear to the Sky"** has the same meaning as that in the Building Regulations.

AA3262

30/03/2017 \$92.70 MCP

- 
- 1.8 “**Control**” includes a restriction in terms of the *Subdivision Act 1988*, an agreement under section 173 of the Planning Act, a Planning Permit, an Act or an order of a Court or tribunal, which relates to the siting of a Building.
  - 1.9 “**Edge Boundary**” means the boundary or part of a boundary of a Lot that abuts a lot which is not shown on the Plan of Subdivision.
  - 1.10 “**Finished Surface Level**” means the finished surface level of the ground at the time of registration of the Plan of Subdivision.

Where there is more than one road which adjoins a Lot, or where it may otherwise be unclear, the Front Street will be the one with the greatest Setback dimension from the Lot boundary as shown on the Endorsed Building Envelope Plan or as agreed in writing by Lendlease.
  - 1.12 “**Habitable Room**” has the same meaning as in the Building Code of Australia.

## 2 EXEMPTION FROM THE NEED FOR REPORT AND CONSENT

### 2.1 General

In respect of a Building that does not require a Planning Permit, the restriction described under "**CREATION OF RESTRICTION A**" in the Plan of Subdivision exempts a proposed dwelling design which complies with this MCP from requiring the consent and report of the relevant council with regard to a design which does not comply with the Building Regulations in respect of the following:

## 2.13 Design Detail (Clause 54.06-1)

### 2.13.1 Corner Lots

A Building on a corner Lot must be designed to address (at each level) both the front and side street or public open space.

Where a wall to the second storey of a Building faces a side street or public open space, a minimum of one of the following design articulation elements must be provided:

- an additional setback of the second storey of at least 0.9 metres; or
- a portion of wall to the ground, upper or combination of floors to incorporate a minimum 350mm setback or projection for a length of at least 30% of the side wall; or

**AA3262**

30/03/2017 \$92.70 MCP

A Building of two or more storeys on a Lot with a width of 10 metres or less at the Lot frontage must not contain any garage with an opening greater than 40% of the area of the front façade of that Building:

- The area of the front façade of the Building is measured from a two-dimensional elevation plan and excludes any area of the roof of the Building unless the roof forms part of the front wall interface such as with skillion or gable roof forms.
- In addition, to provide some additional design articulation, the design must incorporate material variation as well as a projection or overhang to the upper floor structure or balcony element that is at least 300mm forward of the garage front wall. A balcony element must have a minimum width of 35% of the Lot frontage.
- A defined sense of entry must also be provided to all homes.
- A Building on a Lot must share a double crossover with the adjacent Lot.
- A minimum of 40% of the upper floor façade must include glazing.

### **3 SITING OF A BUILDING**

A Building (other than a boundary fence) on any Lot with a Height above the Finished Surface Level of greater than 1.8 metres and for which the construction requires a Building Permit must be sited within and in accordance with the Endorsed Building Envelope Plan. The siting of a Building within the Endorsed Building Envelope Plan may be subject to any further restriction or modification imposed by this MCP or any other applicable Control.

### **4 VARIATION TO SITING OF BUILDING**

4.1 Notwithstanding anything to the contrary contained in this MCP, Lendlease may in its absolute discretion authorise in writing the siting of a Building which does not comply with the restriction created by the Plan of Subdivision, provided that such siting complies with:

4.1.1 the requirements of the Building Regulations including being subject to the report and consent of the relevant reporting authority in terms of the Building Regulations.

4.2 Approval by Lendlease pursuant to this clause will only be provided in circumstances where Lendlease in its absolute discretion considers that the siting is desirable, in terms of achieving a better planning outcome than may otherwise be achieved and will not result in any significant detriment to abutting owners or occupiers.

### **5 APPROVAL OF HOUSE DESIGN**

5.1 A two-storey dwelling must be constructed upon any Lot that is identified on the Endorsed Building Envelope Plan as being a Lot upon which a two-storey residence is required, unless Lendlease, in its absolute discretion, approves in writing otherwise.

5.2 The design and siting of a Building on any Lot and the change to any existing Building on any Lot (where such change requires a Building Permit) must be in accordance with the design guidelines applicable to the Lot and must be approved in writing by Lendlease prior to any formal application for a Building Permit.

AA3262

30/03/2017 \$92.70 MCP

- 
- 5.3 Two dwellings must be constructed upon any Lot that is identified on the Endorsed Building Envelope Plan as being a "Gallery (Multi-Dwelling)" Lot or a "Gallery (Single Storey Multi-Dwelling)" Lot unless Lendlease, in its absolute discretion, agrees that such other number of dwellings may be constructed on that Lot.

These Conditions of Connection set out the terms and conditions to be satisfied for connecting a property to sewer, potable and recycled water.

These conditions are binding on successor-in-title of the person who applied for that consent, under section 145 of the Water Act 1989. If you are not the owner of the property, please provide a copy of this letter to the owner.

The Conditions of Connection must be handed to the Licensed Plumber. Any work which these Conditions of Connection require you to undertake, must be done by a Licensed Plumber, engaged by you, at your cost.

It is the Licensed Plumber's responsibility to ensure that the plumbing and drainage work is completed in accordance with the relevant plumbing regulations and to the satisfaction of the Victorian Building Authority – Plumbing.

Any sewer connection branch and the connecting works must be installed so that they comply, in all respects, with the:

- Plumbing Regulations 1998 (Vic);
  - Water Industry Regulations 2006 (Vic);
  - Building Act 1993 (Vic);

of connection.

The pressure in this area is above 500kPa or will increase above 500kPa in the future for the recycled water connection. A Pressure Limiting Valve (PLV) must be fitted by the Licensed Plumber at the time of connection.

For 20mm and 25mm services and all services where a manifold is to be installed, the service pipe, including a meter assembly with a temporary spacer pipe and any relevant backflow device must be installed by the plumber, prior to the time of the tapping or meter installation. Meters are installed by Yarra Valley Waters plumbing contractor. For 32mm and larger services, the meter will be delivered to you and must be installed on the property prior to the tapping. The service pipe must also be installed prior to the tapping. All manifolds are to be located below ground and must be left exposed for Yarra Valley Water's plumbing contractor to inspect prior to installation of the meters. Failure to comply will result in the tapping being cancelled. A rebooking fee will be applicable when rebooking the tapping.

All tapplings, pluggings and metering products can be arranged using easyACCESS. Work must be carried out in accordance with the Water Metering & Servicing Guidelines (see our website). Once all fees have been paid and you are ready to book your plumbing products, please contact Yarra Valley Water's contractor Select Solutions on 1300 724 858. A phone call is not required if products are New Estate Connections or Combo Drinking Water & Recycled Water. Please allow a minimum of 10 business days' notice when contacting Select Solutions.

The dry tapping will be completed within 4 working days of your booking. Please note that if the location of the dry tapping is not suitable, a plug and retap will be required and a fee will apply. Should you wish to reschedule the booking, Yarra Valley Water's plumbing contractor can be contacted on 1300 724 858. If you wish to cancel the booking you will need to contact Yarra Valley Water (if applicable) to seek a refund. A cancellation fee may apply.

- a) Must be within 2 metres of the title boundary that abuts the water main
- b) Must be fitted at right angles to the water main, in line with the tapping
- c) Must be fully supported with minimum ground clearance of 150mm and should not be >300mm from the finished ground level to the base of the assembly

- f) Can be installed in utility rooms or meter cabinets located within a common access area and must be readily accessible, subject to Yarra Valley Water's approval

If meters need to be moved >600mm a plugging and re-tapping must be booked and the relevant fee paid.

Meters which are in a public space such as a reserve or school must be protected by an appropriate cage to prevent tampering.

Meters are not permitted to be installed in pits unless prior approval has been given by Yarra Valley Water.

Meter assemblies must adhere to the meter installation diagrams available on the Yarra Valley Water website ([www.yvw.com.au](http://www.yvw.com.au)) to ensure the installations meet the required standard.

### **REMOVAL OF WATER METERS**

Only Yarra Valley Water's plumbing contractor is permitted to remove water meters.

If redevelopment of the site is occurring and the meter is no longer required, a plugging of the service must be arranged and the meter will be collected by our contractor at the time of the plugging.

### **DAMAGED OR STOLEN METERS**

If the builder/plumber damage a meter or meter assembly, it is the responsibility of the builder/plumber to rectify these assets back to the same condition as at time of installation by Yarra Valley Water.

- Failure to do so will result in Yarra Valley Water making the necessary amendments and recovering these costs from the property owner.
- Repeat offences may result in the services being plugged and re-booking fees will apply to have the services reinstated

Stolen meters are to be reported to Yarra Valley Water faults and emergencies:

- Call **13 2762** (24 hrs).
- Replacement of stolen meters can take up to 10 days. If replacement is required more urgently, please advise the operator at the time of the call.

### 3.6. Irrigation Systems

- (a) Irrigation systems connected to recycled water must be fitted with an approved master solenoid valve to ensure that main lines up to individual sprinkler station solenoid valves are not under constant pressure. The master solenoid should be located close to the meter assembly to reduce the length of pressurized irrigation piping.
- (b) An appropriate containment backflow prevention device is to be fitted and independently

tested.

- (c) You must ensure that recycled water runoff from the property to the stormwater is prevented.

### 3.7. Regulatory Prohibition Hybrid Signs

- (a) A recycled water regulatory prohibition hybrid sign with the words **"Recycled Water Do Not Drink"** and complying with AS1319 is to be installed within 150mm of each external recycled water tap outlet, above the tap.

- (a) AS/NZS 3500
- (b) Water Metering & Servicing Guidelines (Water Authorities). A copy of these guidelines are available by visiting [www.yvw.com.au](http://www.yvw.com.au)
- (c) EPA Dual pipe water recycling schemes – health and environmental risk management (guidelines for environmental management)

## 6. Inspections For Recycled Water Plumbing Works

6.1. The plumber is required to register and book inspections via Yarra Valley Water's online booking system ([www.yvw.com.au/rwinspection](http://www.yvw.com.au/rwinspection)). Inspections are mandatory and required at the stages below:

### (a) R1 – All below ground pipework prior to backfilling

- (i) For Houses and High Rise developments an R1 inspection must be done from the main meter to the building
- (ii) For Multi-Unit developments an R1 inspection must be done for the internal main between the main meter and the check meters. R1 inspections are then required for each unit from the check meter to each dwelling
- (iii) For larger, more complex developments multiple R1 inspections may be required to inspect all the below ground pipework in stages
- (iv) Irrigation Systems require inspection of all below ground pipework

### (b) R2 – All internal pipework prior to plastering

- (i) For High-Rise developments separate R2 inspections must be booked for the common pipework on each floor servicing each dwelling

### (c) R3– Commissioning prior to occupancy

- (i) The site must have passed the R1 and R2 inspections before the R3 can be done
- (ii) All tap-ware and plumbing fixtures must be fitted and operational
- (iii) Properties must not be occupied before passing the R3 inspection

- (iv) Irrigation systems must be commissioned prior to lodgement of the Compliance Certificate

**For inspection related enquiries:**

**Email: [rwplumbinginspection@yvw.com.au](mailto:rwplumbinginspection@yvw.com.au)**

**Phone: 9872 2518**

- 6.2. The deadline for booking R1 and R2 inspections is 3pm Monday to Friday
- 6.3. R3 inspections require two (2) business days' notice of the required inspection date
- 6.4. Inspections will take place Monday to Friday only. Inspections are not available on weekends or public holidays. Inspection times are 7.30am to 3pm.
- 6.5. R1 and R2 inspections can be booked consecutively for the same booking date only if they are both ready for inspection
- 6.6. R2 inspections can only be booked on metered properties or where a test bucket has been used to pressurise the pipework
- 6.7. For R3 inspections the plumber will be contacted by the next business day to confirm the inspection time
- 6.8. Safe access to the site must be provided for inspections to take place
- 6.9. Failure to book inspections will result in penalties. Refer Section 1.
- 6.10. A PIC Consent Number is required for every property/residence being booked for inspections. Contact Yarra Valley Water if you do not have a PIC number for every property/residence being inspected:
  - (a) For unit developments a Stage 1 (R1) inspection is also required from the main meter to the check meters, therefore a PIC Consent Number is also required for the main to check inspection.
- 6.11. Straight bridging pieces where a meter is missing are not acceptable due to the risk of backflow contamination:
  - (a) Properties using a straight piece will not pass these inspections.
- 6.12. Yarra Valley Water will only carry out the required inspections in so far as they relate to the Conditions of Connection issued for new developments connecting to recycled water. Inspections will be carried out in accordance with the EPA Guidelines and a Risk Based Approach. Yarra Valley Water will not be certifying or approving plumbing works in terms of quality and will not be liable for any poor workmanship carried out by the plumber.

## 7. Temporary Cross Connections

- 7.1. Where pressure testing of pipework installed for the provision of Class A Recycled Water requires a temporary interconnection with the drinking water supply plumbing, such interconnection is to be above ground and clearly visible.
- 7.2. This interconnection is to be removed by the private plumber at the time of the commissioning inspection.

## 8. Tappings

- 8.1. The drinking water property service pipe is to be PE pipe and must be water marked.
- 8.2. The Class A Recycled Water property service pipe is to be solid jacketed purple PE pipe and must be water marked:
  - (a) PE pipe must not form any part of the water meter assembly.
- 8.3. **In the case of short side installations** the recycled water service pipe is to be laid on the left of the drinking water property service pipe (when facing the property) and maintain 300mm separation.
- 8.4. **In the case of long side installations** the same conduit for the drinking water property service may be utilised for the recycled water, however the 300mm separation is to be maintained on both the upstream and downstream ends of the conduit.

## 9. Locking Device

- 9.1. All recycled water meters will be installed with a locking device at the time of the tapping.
- 9.2. The locking device can only be removed by Yarra Valley Water when the property is commissioned, passing the R3 inspection:
  - (a) If the locking device is removed prior to commissioning, this will be considered a breach of these Conditions and Section 288 of *the Act*. The locking device will be re-fitted and follow up will occur under *the Act*.

## 10. Meter Assemblies & Positioning

- 10.1. Recycled water meters are to be positioned to the left of the drinking water meter assembly.
- 10.2. Recycled water meters and the meter assembly including inlet and outlet pipework must be purple.

**10.3. Meters in recycled water areas can only be moved by Yarra Valley Water.**

- (a) An application must be made online via easyACCESS to move the meter/s.
- (b) Yarra Valley Water can move meters up to 600mm from their original tapping location:
  - (i) 20mm and 25mm meters **are moved for free**
  - (ii) 32mm and above incur costs
- (c) Meters which need to be moved >600mm need to be plugged and re-tapped and the relevant fees paid.
- (d) Any meters which have been illegally moved are in breach of these Conditions and Section 288 of *the Act*. Yarra Valley Water will take the necessary action required to rectify the meters and recover any costs in doing so from the applicant or property owner as required. Rectification may include disconnection of services, relocating meters back to their original position, or if this is not possible plugging and re-tapping to a new location.

10.4. Meters which are in a public space such as a reserve or school must be protected by an appropriate cage to prevent tampering.

10.5. Meters are not permitted to be installed in pits unless prior approval has been given by Yarra Valley Water.

10.6. Any 25mm installation must be fitted with a right-angle ball valve.

10.7. Minimum separation between meters as follows:

- (a) 20mm to 25mm meters – 250mm minimum clearance between meters
- (b) 32mm and above – 150mm minimum clearance between meters
- (c) For recycled and potable meters – minimum 300mm minimum clearance between the recycled and potable meters

**11. Stolen Meters**

11.1. Until the meter is replaced no connections between the supply and the dwelling are to be reinstated at the property. No straight pieces or alternative connections are allowed to be installed unless fitted by Yarra Valley Water's maintenance contractor.

11.2. Stolen meters must be reported by calling Yarra Valley Water on **1300 304 688**.

## **12. Owner's Responsibility**

12.1. It is the owner/s (or for non-residential properties with a Recycled Water Agreement, the site occupier/s) responsibility to carry out the following:

- (a) Educate children and visitors to the property about the permitted uses of Class A recycled water
- (b) Remove the handle from the recycled water taps when not in use
- (c) Ensure that all recycled water regulatory prohibition hybrid signs are visible and legible at all times

12.2. For Irrigation Systems:

- (a) Until Class A Recycled Water is available (i.e. charged through the recycled water main), irrigation systems time of operation must comply with current Government water restriction requirements
- (b) Annual testing of the backflow prevention device is required to ensure the device is operating correctly
- (c) Signage must be produced at the owner's expense and displayed prominently within 150mm of all recycled water outlets. These signs should comply with AS1319 and should contain the wording: "Recycled Water Do Not Drink".

12.3. The conditions detailed in this document are binding on subsequent owners.

## **SEWER**

Where a proposed development is to be constructed boundary to boundary and there is no compliant location for a sewer connection branch within the property, Yarra Valley Water approves the endpoint of the YVW sewer branch to be located outside the property and raised to surface with an appropriate approved cover. The sewer branch must meet the required clearances from proposed structures as per the Build Over Easement Guidelines. Approval may be required for private plumbing located in road reserves by Council or VicRoads. Any unused sewer branches at the site must be cut and sealed by a Yarra Valley Water accredited live sewer contractor.

Following the completion of new or altered property sewerage drain, a copy of the updated Property Sewerage Plan must be returned within 7 days to Yarra Valley Water [easyACCESS@yvw.com.au](mailto:easyACCESS@yvw.com.au).

# Notes to Certificate - Land Tax

Certificate No: 96875819

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
  - Land tax that has been assessed but is not yet due,
  - Land tax for the current tax year that has not yet been assessed, and
  - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

## Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

## Information for the purchaser

4. Pursuant to section 96 of the *Land Tax Act 2005*, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge and Vacant Residential Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

## Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax including vacant residential land tax, interest and penalty tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
8. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

## For Information Only

# Notes to Certificate - Commercial and Industrial Property Tax

Certificate No: 96875819

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any commercial and industrial property tax (including interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue.

## Australian Valuation Property Classification Code (AVPCC)

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the *Valuation of Land Act 1960*:
  - a general valuation of the land;
  - a supplementary valuation of the land returned after the general valuation.
4. The AVPCC(s) shown in respect of land described on the Certificate can be relevant to determine if the land has a qualifying use, within the meaning given by section 4 of the *Commercial and Industrial Property Tax Reform Act 2024* (CIPT Act). Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
  - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
  - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
  - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

## Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
  - the date on which the land became tax reform scheme land;
  - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
  - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

## Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification

must be given to the Commissioner within 30 days of the change of use.

## Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

## Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

## Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to [www.sro.vic.gov.au/CIPT](http://www.sro.vic.gov.au/CIPT).
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
  - the request is within 90 days of the original Certificate's issue date, and
  - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

# Notes to Certificate - Windfall Gains Tax

Certificate No: 96875819

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows in respect of the land described in the Certificate:
  - Windfall gains tax that is due and unpaid, including any penalty tax and interest
  - Windfall gains tax that is deferred, including any accrued deferral interest
  - Windfall gains tax that has been assessed but is not yet due
  - Windfall gains tax that has not yet been assessed (i.e. a WGT event has occurred that rezones the land but any windfall gains tax on the land is yet to be assessed)
  - Any other information that the Commissioner sees fit to include such as the amount of interest accruing per day in relation to any deferred windfall gains tax.

## Windfall gains tax is a first charge on land

3. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, windfall gains tax, including any accrued interest on a deferral, is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid windfall gains tax.

## Information for the purchaser

4. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, if a bona fide purchaser for value of land applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser by the Commissioner is the amount set out in the certificate, described as the "Current Windfall Gains Tax Charge" overleaf.
5. If the certificate states that a windfall gains tax is yet to be assessed, note 4 does not apply.
6. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

7. Despite the issue of a Certificate, the Commissioner may recover a windfall gains tax liability from a vendor, including any amount identified on this Certificate.

## Passing on windfall gains tax to a purchaser

8. A vendor is prohibited from passing on a windfall gains tax liability to a purchaser where the liability has been assessed under a notice of assessment as at the date of the contract of sale of land or option agreement. This prohibition does not apply to a contract of sale entered into before 1 January 2024, or a contract of sale of land entered into on or after 1 January 2024 pursuant to the exercise of an option granted before 1 January 2024.

## General information

9. A Certificate showing no liability for the land does not mean that the land is exempt from windfall gains tax. It means that there is nothing to pay at the date of the Certificate.
10. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.
11. Where a windfall gains tax liability has been deferred, interest accrues daily on the deferred liability. The deferred interest shown overleaf is the amount of interest accrued to the date of issue of the certificate.
