- 4.6 Settlement occurs when the workspace records that:
- (a) the exchange of funds or value between financial institutions in accordance with the instructions of the parties has occurred; or

- 5.2 This general condition 15B applies if the purchaser is required to pay the Commissioner an *\*amount* in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) because the property is *\*new residential premises* or *\*potential residential land* in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this general condition 15B is to be taken as relieving the vendor from compliance with section 14-255.
- 5.3 The amount is to be deducted from the vendor's entitlement to the contract *\*consideration* and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14-255 of

Schedule 1 to the *Taxation Administration Act 1953* (Cth). The vendor must pay to the purchaser at settlement such part of the amount as is represented by non-monetary consideration.

5.4 The purchaser must:

- (a) engage a legal practitioner or conveyancer ("representative") to conduct all the legal aspects of settlement, including the performance of the purchaser's obligations under the legislation and this general condition; and
- (b) ensure that the representative does so.

5.5 The terms of the representative's engagement are taken to include instructions to have regard to the vendor's interests relating to the payment of the amount to the commissioner and instructions that the representative must:

- (a) pay, or ensure payment of, the amount to the Commissioner in the manner required by the Commissioner and as soon as reasonably and practicably possible, from moneys under the control or direction of the representative in accordance with this general condition on settlement of the sale of the property;
- (b) promptly provide the vendor with evidence of payment, including any notification or other document provided by the purchaser to the Commissioner relating to payment; and
- (c) otherwise comply, or ensure compliance, with this general condition;

despite:

- (d) any contrary instructions, other than from both the purchaser and the vendor; and
- (e) any other provision in this contract to the contrary.

5.6 The representative is taken to have complied with the requirements of general condition 15B.5 if:

- (a) settlement is conducted through the electronic conveyancing system operated by Property Exchange Australia Ltd or any other electronic conveyancing system agreed by the parties; and
- (b) the amount is included in the settlement statement requiring payment to the Commissioner in respect of this transaction.

5.7 The purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the *Taxation Administration Act 1953* (Cth), but only if:

- (a) so agreed by the vendor in writing; and
- (b) the settlement is not conducted through an electronic settlement system described in general condition 15B.6.

However, if the purchaser gives the bank cheque in accordance with this general condition 15B.7, the vendor must:

- (c) immediately after settlement provide the bank cheque to the Commissioner to pay the amount in relation to the supply; and
- (d) give the purchaser a receipt for the bank cheque which identifies the transaction and includes particulars of the bank cheque, at the same time the purchaser gives the vendor the bank cheque.

5.8 The vendor must provide the purchaser with a GST withholding notice in accordance with section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) at least 14 days before the due date for settlement.

- (a) decide if an amount is required to be paid or the quantum of it, or
- (b) comply with the purchaser's obligation to pay the amount,

in accordance with section 14-250 of Schedule 1 of the *Taxation Administration Act 1953* (Cth). The information must be provided within 5 business days of a written request. The party providing the information warrants that it is true and correct.

5.10 The vendor warrants that:

- (a) at settlement, the property is not new residential premises or potential residential land in either case falling within the parameters of section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) if the vendor gives the purchaser a written notice under section 14-255 to the effect that the purchaser will not be required to make a payment under section 14-250 in respect of the supply, or fails to give a written notice as required by and within the time specified in section 14-255; and
- (b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) is the correct amount required to be paid under section 14-250 of the legislation.

5.11 The purchaser is responsible for any penalties or interest payable to the commissioner on account of non-payment or late

payment of the amount, except to the extent that:

- (a) the penalties or interest arise from the vendor's failure, including breach of a warranty in general condition 15B.10; or
- (b) the purchaser's reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth)

The vendor is responsible for any penalties or interest payable to the commissioner on account of non-payment or late payment of the amount if either exception applies.

- 24.5 The purchaser must:
- (a) The engage a legal practitioner or conveyancer (“representative”) to conduct all the legal aspects of settlement, including the performance of the purchaser’s obligations under the legislation and this general condition; and

- 25.4 The remaining provisions of this general condition 25 apply if the purchaser is or may be required to pay the Commissioner an \*amount in accordance with section 14-250 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) because the property is \*new residential premises or \*potential residential land in either case falling within the parameters of that section, and also if the sale attracts the operation of section 14-255 of the legislation. Nothing in this general condition 25 is to be taken as relieving the vendor from compliance with section 14-255.
- 25.5 The amount is to be deducted from the vendor’s entitlement to the contract \*consideration and is then taken to be paid to the vendor, whether or not the vendor provides the purchaser with a GST withholding notice in accordance with section 14- 255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth). 25.9 The purchaser may at settlement give the vendor a bank cheque for the amount in accordance with section 16-30 (3) of Schedule 1 to the *Taxation Administration Act 1953* (Cth), but only if:

- (a) so agreed by the vendor in writing; and
- (b) the settlement is not conducted through an electronic lodgment network.

However, if the purchaser gives the bank cheque in accordance with this general condition 25.9, the vendor must:

- (b) the amount described in a written notice given by the vendor to the purchaser under section 14-255 of Schedule 1 to the *Taxation Administration Act 1953* (Cth) is the correct amount required to be paid under section 14-250 of the legislation

25.12 The purchaser is responsible for any penalties or interest payable to the Commissioner on account of non-payment or late payment of the amount, except to the extent that:

- (a) the penalties or interest arise from any failure on the part of the vendor, including breach of a warranty in general condition 25.11; or
- (b) the purchaser has a reasonable belief that the property is neither new residential premises nor potential residential land requiring the purchaser to pay an amount to the Commissioner in accordance with section 14-250 (1) of Schedule 1 to the *Taxation Administration Act 1953* (Cth).

# Due diligence checklist

## What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](https://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

### Urban living

#### ***Moving to the inner city?***

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

#### ***Is the property subject to an owners corporation?***

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

### Growth areas

#### ***Are you moving to a growth area?***

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

### Flood and fire risk

#### ***Does this property experience flooding or bushfire?***

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

## Rural properties

### ***Moving to the country?***

If you are looking at property in a rural zone, consider:

Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.

Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.

Do you understand your obligations to manage weeds and pest animals?

### ***Can you build new dwellings?***

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

### ***Is there any earth resource activity such as mining in the area?***

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

## Soil and groundwater contamination

### ***Has previous land use affected the soil or groundwater?***

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

## Land boundaries

### ***Do you know the exact boundary of the property?***

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

## Planning controls

### ***Can you change how the property is used, or the buildings on it?***

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

### ***Are there any proposed or granted planning permits?***

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

## Safety

### ***Is the building safe to live in?***

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

## Building permits

### ***Have any buildings or retaining walls on the property been altered, or do you plan to alter them?***

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

### ***Are any recent building or renovation works covered by insurance?***

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

## Utilities and essential services

### ***Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?***

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

## Buyers' rights

### ***Do you know your rights when buying a property?***

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

# Vendor Statement

Prior to application for a building permit and in accordance with the Section 173 agreement, all buildings (including fences and other structures) must be endorsed by the Deakin Land Authority (DLA) in compliance with the Roxburgh Park Development Guidelines and in accordance with the Roxburgh Park Development Guidelines.

The DLA may endorse a development which varies from the specific requirements of this Code provided it general intent to meet the requirements of the Code and the development is in accordance with the Roxburgh Park Development Guidelines and in accordance with the Roxburgh Park Development Guidelines and in accordance with the Roxburgh Park Development Guidelines.

**BUILDING TO THE BOUNDARY**

Dwellings and outbuildings may be built to the boundary under the following conditions:

- a maximum building height of 3.0 metres (except for boundaries marked with the symbol 'a' where the maximum height is 12 metres);
- a maximum building width of 10 metres (including carports) along a side or rear boundary (subject to boundaries marked with the symbol 'a');

**MINIMUM BUILDING SETBACKS**

The figure beside each lot boundary represents the minimum required dwelling setback from that property boundary. In the case of setbacks and side boundaries that show a greater minimum required setback (refer to 'Notes').

A dwelling that is constructed on a corner lot must be set with its frontage being the boundary with the greater specified setback from a road reserve. Where the specified setbacks from road reserves are the same, the dwelling must be set with its frontage being the boundary marked 'P'.

A dwelling that is not constructed on a property boundary must be setback at least 1 metre from the boundary.

- for that part of the wall over 8.7 metres in height a minimum setback of 1 metre for every 1 metre of height.

**CAR PARKING**

Dwellings must be sited to enable the provision of at least of two car parking spaces. The car parking spaces must be located on the lot being proposed, all in accordance with V-Codes and the Council's Planning Policy for Dwelling Enclosures must identify the location, dimensions, driveway access and surface treatment proposed.

## SIGNS

### IMPORTANT INFORMATION

*The Urban Land Authority (ULA) requires by covenant (or, as an alternative, via a condition in each contract of sale) that the purchaser gain the endorsement of the ULA for most signs on the lot. Some signs do not require ULA endorsement.*

*The ULA endorsed plans have statutory status and lot owners are liable to legal action and costs if development is not in full compliance with them. Signs must be sited and constructed in accordance with the ULA endorsed plans (in addition to any building permit) in order to comply with contractual obligations.*

*Requests for ULA endorsement must include three copies of dimensioned plans, elevations, site plans and schedules of colours and materials.*

*ULA endorsement is additional to and not in lieu of any State or Local Government planning or building approval requirements. The onus is on the applicant to ascertain any such requirements.*

*The ULA may endorse a development which varies from the specific requirements provided its general intent is met. No such development shall be endorsed by the ULA if it requires an additional planning permit or other approval from the responsible authority, if that permit or other approval has not been granted.*

## SUMMARY

### GENERAL

- All signs (other than exempt signs) must be endorsed by the ULA before being erected on a lot.
- One temporary sign may be erected and be on a lot at any one time without the endorsement of the ULA, provided that it is not an animated or internally illuminated sign and it is either:
  - a sign related to the construction of a dwelling on the lot on which the sign is displayed (for example, the name of the builder)

where the sign is no larger than 915mm x 610mm in size and is removed within seven days of completion of construction; or

- a sign publicising the sale of a property on which it is displayed where the sign is no larger than 1830mm x 915mm (with the long axis of the sign being vertical) and is removed within seven days of the signing of the contract of sale.

### OTHER CONTROLS

- This brochure summarises the main sign controls in the Roxburgh Park Development Guidelines. Other sign controls also apply.
- The Roxburgh Park Development Guidelines also include controls relating to house siting and design, landscaping, fences and other issues not referred to here.
- Owners/occupiers are required to comply with all of the parts of the Roxburgh Park Development Guidelines.

Land

## LAWNS

- A suggested mixture of lawn seed for Roxburgh Park includes creeping red fescue, fine leaf rye and Victorian bent.
- Before planting lawn seed soil should be prepared properly by:
  - rotary hoeing and adding about two kilograms of gypsum per square metre dug into the soil to a depth of about 100 millimetres;
  - adding sandy loam which will improve further the structure of basalt soils and will assist drainage and root development;
  - keeping the ground damp while lawn seed is germinating and using a good fertiliser.

Seeded lawn on the naturestrip provides visual continuity to the streetscape and adds to the appearance of dwellings. Property owners are encouraged to complete landscaping of the area of the nature strip adjacent to their property.

## SERVICES

- It is your responsibility to be aware of the location of any underground services before excavating for any purpose. Contact the *Dial Before you Dig* line by telephoning 1100 to determine the location of service lines.
- Trees should not be planted above sewer/stormwater lines.
- The SECV booklet **Guide to Tree Planting Near Power Lines** provides advice on planting in the vicinity of overhead power lines.

## PLANTING HINTS

- Good planting techniques help to establish successful gardens. Some suggestions (which may vary depending on individual circumstances) are:
  - native plants bought in tubes will grow more strongly and quickly than larger native plants;
  - trees and shrubs should be planted preferably from plastic pots or bags because they have stronger roots than bare-rooted plants;
  - autumn planting requires less watering and is the best time to plant most natives;
  - deciduous plants should be planted in winter and early spring;
  - soil should be moistened slowly before digging a hole slightly wider and deeper than the container holding the plant;

- bare-rooted plants, such as fruit trees or roses, should not be left to dry out before planting;
- after planting, slow release fertiliser should be added and the plant staked on its windward side;
- plants should be pruned to remove unwanted growth with evergreens pruned after flowering and deciduous shrubs pruned when leafless;
- some plants, such as roses and azaleas, need specific alkaline/acid levels in the soil and should have special horticultural products added at prescribed rates;
- gardens should be fertilised periodically; compost is excellent and cheap.

## OTHER CONTROLS

- This brochure is a summary of the main landscape controls and guidelines in the Roxburgh Park Development Guidelines. Other development controls also apply.
- The Roxburgh Park Development Guidelines also include controls relating to house siting and design, fencing, signs and other issues not referred to here.
- You are required to comply with all of the parts of the Roxburgh Park Development Guidelines.

# ROXBURGH PARK DEVELOPMENT GUIDELINES

## LANDSCAPE

### IMPORTANT INFORMATION

*The Urban Land Authority (ULA) has a Comprehensive Landscape Program with the objective of creating a sustainable, easily managed and attractive landscape throughout Roxburgh Park. The ULA proposes the use of indigenous plant species to form treelined avenues and public open spaces of shady, sheltered areas with an open woodland character.*

*The program outlines landscape treatments for:*

- main entrances into Roxburgh Park, arterial roads and local streets;
- parks and recreation areas;
- walking/cycling paths;
- landscape staging and maintenance.

*The program also forms the basis for planting themes and patterns within private lots and will assist to create a unified landscape character throughout Roxburgh Park.*

## SUMMARY

### GENERAL

- Owners must landscape gardens in public view within six months of occupation of a dwelling on the lot.
- A screen of attractive trees and shrubs helps increase privacy and hide service areas. Trees also provide protection from strong winds.
- Residents must control moisture variations and potential damage from tree roots in the vicinity of any adjoining building, particularly where the building is built to the boundary.
- Landscaped areas should be designed to drain appropriately and avoid water-logging.

- Excessive water use is costly and wasteful. There are simple ways of minimising the amount of water used around the garden including:
  - minimising lawn areas;
  - using hardy native plants;
  - using watering systems to control the time and length of watering;
  - deep, regular soakings (rather than quick, light watering which tends to run off and dries out quickly);
  - mulching to conserve moisture around trees and plants;
  - contouring areas to retain or capture water.

### PLANT SELECTION

- It is recommended that plants be selected that are suitable for Roxburgh Park soils and climate. A list of suitable species is available from the ULA.
- Native trees and shrubs are generally fast growing, especially those species indigenous to the area.
- The careful selection and placement of deciduous trees helps to provide shade in summer and sun in winter.
- When selecting trees check the mature height and breadth of the species before planting. Plant trees where they are able to grow to full size.

*continued over...*

## SIDE FENCES

In order to achieve an open streetscape, side fences are not normally allowed within the specified minimum setback of buildings from the lot frontage. The ULA also prefers no side fences abutting a road on the side boundary of a corner lot.

Where the ULA determines that special circumstances warrant endorsement of a side fence in the frontage setback, the following provisions will normally apply:

- any fence should be of a height and design that takes into account the amenity and character of the street, the design and appearance of the associated house, surveillance and safety, the security of children, pets and property and the use of the front garden space;
- any fence is not more than 1 metre high or is not more than 1.5 metres high if more than 50 per cent transparent;
- a side fence up to 2 metres high may be erected only where:
  - it is also the rear fence of an adjoining lot; or
  - the main private open space is in front and to the north of the dwelling and some surveillance of the street from dwelling windows is maintained; and
  - it is on only one side boundary and forms a private courtyard or similar space;

- except with a building permit, any side fence abutting a road must be not greater than 1 metre in height.

Side fences outside the front setback should have a maximum height of 2 metres.

Except with a building permit any side fence abutting a road must be not greater than 1 metre in height.

## REAR FENCES

Fencing along the rear of a property that does not abut an open space reserve, tree reserve or arterial road should be consistent with the height of side fences and have a maximum height of 2 metres.

## OTHER FENCES

All lot fencing adjacent to public open space or tree reserves on arterial roads, will be erected by the ULA in accordance with the Comprehensive Landscape Program for Roxburgh Park. Such fencing will be high quality feature fencing. The equivalent half cost of a standard paling fence will be recovered from abutting lot owners.

## ENDORSEMENT

When considering whether or not to give its endorsement, the ULA will have regard to:

- the policy not to have fences in any street setback;
- any special circumstances that may warrant a fence in the street setback;
- the design and height of any proposed fence;
- the compatibility of the fence with buildings and the local streetscape;
- the fencing materials proposed (timber is preferred whilst brick is not recommended because of soil conditions that encourage lightly loaded and shallow footings to crack);
- the colour of the fence.

## OTHER CONTROLS

This brochure summarises the main fencing controls in the Roxburgh Park Development Guidelines. Other fencing controls also apply.

The Roxburgh Park Development Guidelines also include controls relating to house siting and design, landscaping, signs and other issues not referred to here.

Owners/occupiers are required to comply with all of the parts of the Roxburgh Park Development Guidelines.

## FENCES

### IMPORTANT INFORMATION

The Urban Land Authority (ULA) requires by covenant (or, as an alternative, via a condition in each contract of sale) that the purchaser gain the endorsement of the ULA for any fence on the lot.

The ULA endorsed plans have statutory status and lot owners are liable to legal action and costs if development is not in full compliance with them. Fences must be sited and constructed in accordance with the ULA endorsed plans (in addition to any building permit) in order to comply with contractual obligations.

As a general rule, fencing is not allowed within the specified minimum setback of buildings from the lot frontage and is discouraged along side boundaries that abut roads (on corner lots).

Lot owners who believe special circumstances warrant a fence within the frontage setback, may seek endorsement from the ULA. Endorsement will only occur if the ULA is satisfied there are special circumstances (such as the proposed fence being on a boundary shared with public open space, a tree reserve or a shop or the lot being part of a special housing area such as terraces or similar).

Requests for ULA endorsement must include three copies of dimensioned plans, elevations, site plans and schedules of colours and materials.

ULA endorsement is additional to and not in lieu of any State or Local Government planning or building approval requirements.

The ULA may endorse a development which varies from the specific requirements provided its general intent is met.

## SUMMARY

### FRONT FENCES

In order to achieve an open streetscape, front fences are not normally allowed.

Where the ULA determines that special circumstances warrant endorsement of a front fence, the following provisions will normally apply:

- any fence should be of a height and design that takes into account the amenity and character of the street, the design and appearance of the associated house, surveillance and safety, the security of children, pets and property and the use of the front garden space;
- any fence is not more than 1 metre high or is not more than 1.5 metres high if more than 50 per cent transparent;
- fences up to 2 metres high may be erected only where the principal private open space is in front and to the north of the house and some surveillance of the street from house windows is maintained and only where limited to part of the frontage to form a private courtyard or similar space;
- any fence greater than 1 metre high requires a building permit in addition to endorsement by the ULA.

# Notes to Certificate - Land Tax

Certificate No: 97753638

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
  - Land tax that has been assessed but is not yet due,
  - Land tax for the current tax year that has not yet been assessed, and
  - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

## Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

## Information for the purchaser

4. Pursuant to section 96 of the *Land Tax Act 2005*, if a purchaser of the land described in the Certificate has applied for and obtained a certificate, the amount recoverable from the purchaser by the Commissioner cannot exceed the amount set out in the certificate, described as the "Current Land Tax Charge and Vacant Residential Land Tax Charge" overleaf. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

## Apportioning or passing on land tax to a purchaser

6. A vendor is prohibited from apportioning or passing on land tax including vacant residential land tax, interest and penalty tax to a purchaser under a contract of sale of land entered into on or after 1 January 2024, where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

7. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
8. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

# Notes to Certificate - Commercial and Industrial Property Tax

Certificate No: 97753638

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows any commercial and industrial property tax (including interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue.

## Australian Valuation Property Classification Code (AVPCC)

3. The Certificate may show one or more AVPCC in respect of land described in the Certificate. The AVPCC shown on the Certificate is the AVPCC allocated to the land in the most recent of the following valuation(s) of the land under the *Valuation of Land Act 1960*:
  - a general valuation of the land;
  - a supplementary valuation of the land returned after the general valuation.
4. The AVPCC(s) shown in respect of land described on the Certificate can be relevant to determine if the land has a qualifying use, within the meaning given by section 4 of the *Commercial and Industrial Property Tax Reform Act 2024* (CIPT Act). Section 4 of the CIPT Act Land provides that land will have a qualifying use if:
  - the land has been allocated one, or more than one, AVPCC in the latest valuation, all of which are in the range 200-499 and/or 600-699 in the Valuation Best Practice Specifications Guidelines (the requisite range);
  - the land has been allocated more than one AVPCC in the latest valuation, one or more of which are inside the requisite range and one or more of which are outside the requisite range, and the land is used solely or primarily for a use described in an AVPCC in the requisite range; or
  - the land is used solely or primarily as eligible student accommodation, within the meaning of section 3 of the CIPT Act.

## Commercial and industrial property tax information

5. If the Commissioner has identified that land described in the Certificate is tax reform scheme land within the meaning given by section 3 of the CIPT Act, the Certificate may show in respect of the land:
  - the date on which the land became tax reform scheme land;
  - whether the entry interest (within the meaning given by section 3 of the Duties Act 2000) in relation to the tax reform scheme land was a 100% interest (a whole interest) or an interest of less than 100% (a partial interest); and
  - the date on which the land will become subject to the commercial and industrial property tax.
6. A Certificate that does not show any of the above information in respect of land described in the Certificate does not mean that the land is not tax reform scheme land. It means that the Commissioner has not identified that the land is tax reform scheme land at the date of issue of the Certificate. The Commissioner may identify that the land is tax reform scheme land after the date of issue of the Certificate.

## Change of use of tax reform scheme land

7. Pursuant to section 34 of the CIPT Act, an owner of tax reform scheme land must notify the Commissioner of certain changes of use of tax reform scheme land (or part of the land) including if the actual use of the land changes to a use not described in any AVPCC in the range 200-499 and/or 600-699. The notification

must be given to the Commissioner within 30 days of the change of use.

## Commercial and industrial property tax is a first charge on land

8. Commercial and industrial property tax (including any interest and penalty tax) is a first charge on the land to which the commercial and industrial property tax is payable. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid commercial and industrial property tax.

## Information for the purchaser

9. Pursuant to section 27 of the CIPT Act, if a bona fide purchaser for value of the land described in the Certificate applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser is the amount set out in the Certificate. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

10. Despite the issue of a Certificate, the Commissioner may recover a commercial and industrial property tax liability from a vendor, including any amount identified on this Certificate.

## Passing on commercial and industrial property tax to a purchaser

11. A vendor is prohibited from apportioning or passing on commercial and industrial property tax to a purchaser under a contract of sale of land entered into on or after 1 July 2024 where the purchase price is less than \$10 million (to be indexed annually from 1 January 2025, as set out on the website for Consumer Affairs Victoria).

## General information

12. Land enters the tax reform scheme if there is an entry transaction, entry consolidation or entry subdivision in respect of the land (within the meaning given to those terms in the CIPT Act). Land generally enters the reform on the date on which an entry transaction occurs in respect of the land (or the first date on which land from which the subject land was derived (by consolidation or subdivision) entered the reform).
13. The Duties Act includes exemptions from duty, in certain circumstances, for an eligible transaction (such as a transfer) of tax reform scheme land that has a qualifying use on the date of the transaction. The exemptions apply differently based on whether the entry interest in relation to the land was a whole interest or a partial interest. For more information, please refer to [www.sro.vic.gov.au/CIPT](http://www.sro.vic.gov.au/CIPT).
14. A Certificate showing no liability for the land does not mean that the land is exempt from commercial and industrial property tax. It means that there is nothing to pay at the date of the Certificate.
15. An updated Certificate may be requested free of charge via our website, if:
  - the request is within 90 days of the original Certificate's issue date, and
  - there is no change to the parties involved in the transaction for which the Certificate was originally requested.

# Notes to Certificate - Windfall Gains Tax

Certificate No: 97753638

## Power to issue Certificate

1. Pursuant to section 95AA of the *Taxation Administration Act 1997*, the Commissioner of State Revenue must issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

## Amount shown on Certificate

2. The Certificate shows in respect of the land described in the Certificate:
  - Windfall gains tax that is due and unpaid, including any penalty tax and interest
  - Windfall gains tax that is deferred, including any accrued deferral interest
  - Windfall gains tax that has been assessed but is not yet due
  - Windfall gains tax that has not yet been assessed (i.e. a WGT event has occurred that rezones the land but any windfall gains tax on the land is yet to be assessed)
  - Any other information that the Commissioner sees fit to include such as the amount of interest accruing per day in relation to any deferred windfall gains tax.

## Windfall gains tax is a first charge on land

3. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, windfall gains tax, including any accrued interest on a deferral, is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any unpaid windfall gains tax.

## Information for the purchaser

4. Pursuant to section 42 of the *Windfall Gains Tax Act 2021*, if a bona fide purchaser for value of land applies for and obtains a Certificate in respect of the land, the maximum amount recoverable from the purchaser by the Commissioner is the amount set out in the certificate, described as the "Current Windfall Gains Tax Charge" overleaf.
5. If the certificate states that a windfall gains tax is yet to be assessed, note 4 does not apply.
6. A purchaser cannot rely on a Certificate obtained by the vendor.

## Information for the vendor

7. Despite the issue of a Certificate, the Commissioner may recover a windfall gains tax liability from a vendor, including any amount identified on this Certificate.

## Passing on windfall gains tax to a purchaser

8. A vendor is prohibited from passing on a windfall gains tax liability to a purchaser where the liability has been assessed under a notice of assessment as at the date of the contract of sale of land or option agreement. This prohibition does not apply to a contract of sale entered into before 1 January 2024, or a contract of sale of land entered into on or after 1 January 2024 pursuant to the exercise of an option granted before 1 January 2024.

## General information

9. A Certificate showing no liability for the land does not mean that the land is exempt from windfall gains tax. It means that there is nothing to pay at the date of the Certificate.
10. An updated Certificate may be requested free of charge via our website, if:
  - The request is within 90 days of the original Certificate's issue date, and
  - There is no change to the parties involved in the transaction for which the Certificate was originally requested.
11. Where a windfall gains tax liability has been deferred, interest accrues daily on the deferred liability. The deferred interest shown overleaf is the amount of interest accrued to the date of issue of the certificate.
