Property water rates search

This aerial map displays a residential area with a complex water network overlaid. The network consists of red lines representing the main water supply lines and blue lines representing the distribution network. Numerous blue square markers are placed along these lines, indicating specific connection points or valves. The map shows a mix of built-up areas with houses and roads, and undeveloped land to the right. Labels on the map include '143 Glen Iris Drive' and 'Bonville Glen'.

This aerial map shows the same residential area from a different perspective, focusing on individual properties and their boundaries. A red pin is placed on one of the properties, likely indicating the location of interest for the water rates search. The map includes labels for 'Kwinana Fwy', 'Glen Iris Dr', 'Bonville Glen', and 'Google Maps'. The 'Layers' button is visible in the bottom left corner.
