Schedule 5

Regulation 6

Information concerning the conduct of public auctions of land

Meaning of Vendor

The vendor is the person who is selling the property that is being auctioned. There may be more than one vendor. Where there are two or more vendors, they are selling the property as co-owners.

Bidding by Co-owners

Where there are two or more vendors of the property, one or some or all of them may bid to purchase the property from their co-owners. The vendor or vendors intending to bid to purchase the property can make these bids themselves, or through a representative, but not through the auctioneer.

Vendor bids

The law of Victoria allows vendors to choose to have bids made for them by the auctioneer. If this is the case, it will be stated as the first rule applying to the auction. However, these bids cannot be made for a co-owner intending to bid to purchase the property from their co-owner or co-owners.

The auctioneer can only make a vendor bid if—

- the auctioneer declares before bidding starts that he or she can make bids on behalf of a vendor, and states how these bids will be made; and
- the auctioneer states when making the bid that it is a bid for the vendors. The usual way for an auctioneer to indicate that he or she is making a vendor bid is to say "vendor bid" in making the bid.

What rules and conditions apply to the auction?

Different rules apply to an auction depending upon whether there are any co-owners intending to bid to purchase the property from their co-owners, and whether vendor bids can be made. The auctioneer must display the rules that apply at the auction.

It is possible that a vendor may choose to have additional conditions apply at the auction. This is only allowed if those additional conditions do not conflict with the rules that apply to the auction or any other legal requirement. The additional conditions are usually contained in the contract of sale.

Copies of the rules

The law requires that a copy of the rules and conditions that are to apply to a public auction of land be made available for public inspection a reasonable time before the auction starts and in any case not less than 30 minutes before the auction starts.

Questions

A person at a public auction of land may ask the auctioneer in good faith a reasonable number of questions about the property being sold, the contract of sale, the rules under which the auction is being conducted and the conduct of the auction.

Forbidden activities at auctions

The law forbids—

- any person bidding for a vendor other than—
 - the auctioneer (who can only make bids for a vendor who does not intend to purchase the property from their co-owner or co-owners); or
 - a representative of a vendor who is a co-owner of the property wishing to purchase the property from their co-owner or co-owners.
- the auctioneer taking any bid that he or she knows was made on behalf of the vendor, unless it is made by a vendor (or their representative) who is a co-owner wishing to purchase the property.
- the auctioneer acknowledging a bid if no bid was made.
- any person asking another person to bid on behalf of the vendor, other than a vendor who is a co-owner engaging a representative to bid for them.
- any person falsely claiming or falsely acknowledging that he or she made a bid.
- an intending bidder (or a person acting on behalf of an intending bidder) harassing or interfering with other bidders at a public auction of land.

Substantial penalties apply to any person who does any of the things in this list.

Who made the bid?

At any time during a public auction of land, a person at the auction may ask the auctioneer to indicate who made a bid. Once such a request has been made, the auctioneer is obliged by law to comply with such a request before taking another bid.

It is an offence to disrupt an auction

The law forbids an intending bidder or a person acting on behalf of an intending bidder from doing any thing with the intention of preventing or causing a major disruption to, or causing the cancellation of, a public auction of land.

The cooling off period does not apply to public auctions of land

If you purchase a property that has been offered for sale by public auction either at the auction or within 3 clear business days before or after the auction, there is no cooling off period.

Due diligence checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the [Due diligence checklist page on the Consumer Affairs Victoria website](http://consumer.vic.gov.au/duediligencechecklist) (consumer.vic.gov.au/duediligencechecklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?

Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

(04/10/2016)

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

Designated BPA maps can be viewed on VicPlan at <https://mapshare.vic.gov.au/vicplan/> or at the relevant local council.

Create a BPA definition plan in [VicPlan](#) to measure the BPA.

Information for lot owners building in the BPA is available at <https://www.planning.vic.gov.au>.

Conditions of Connection Details

GENERAL

In these conditions the terms,

- (a) 'You' and 'Your' refer to the owner of a property connected (or about to be connected) to Yarra Valley Water assets
- (b) 'We', 'Us' and 'Our' refer to Yarra Valley Water.

Section 145 of the Water Act 1989 details the legislative rights and responsibilities of both the applicant and Yarra Valley Water in relation to connection, alteration or removal and discharging to the works of Yarra Valley Water. These Conditions of Connection set out the terms and conditions to be satisfied for connecting a property to sewer, potable and recycled water.

These conditions are binding on successor-in-title of the person who applied for that consent, under section 145 of the Water Act 1989. If you are not the owner of the property, please provide a copy of this letter to the owner.

The Conditions of Connection must be handed to the Licensed Plumber. Any work which these Conditions of Connection require you to undertake, must be done by a Licensed Plumber, engaged by you, at your cost.

It is the Licensed Plumber's responsibility to ensure that the plumbing and drainage work is completed in accordance with the relevant plumbing regulations and to the satisfaction of the Victorian Building Authority – Plumbing.

Any sewer connection branch and the connecting works must be installed so that they comply, in all respects, with the:

- Plumbing Regulations 1998 (Vic);
 - Water Industry Regulations 2006 (Vic);
 - Building Act 1993 (Vic);
 - Relevant AS/NZS series of standards applicable to sewer connection branch and connecting works from time to time,
- and any other technical requirements which we reasonably specify.

It is the responsibility of the person performing any excavation in a road reserve to obtain a Road Opening Permit from the relevant Authority before any excavation work commences. All traffic management requirements contained in the permit must be complied with.

WATER

General water supply(s) are to be installed as referenced in the table of approval details of this document as required services. The table includes water main and connection details. In a mandated recycled water area recycling connections also apply and are referenced in the same table.

For 20mm and 25mm services and all services where a manifold is to be installed, the service pipe, including a meter assembly with a temporary spacer pipe and any relevant backflow device must be

installed by the plumber, prior to the time of the tapping or meter installation. Meters are installed by Yarra Valley Waters plumbing contractor. For 32mm and larger services, the meter will be delivered to you and must be installed on the property prior to the tapping. The service pipe must also be installed prior to the tapping. All manifolds are to be located below ground and must be left exposed for Yarra Valley Water's plumbing contractor to inspect prior to installation of the meters. Failure to comply will result in the tapping being cancelled. A rebooking fee will be applicable when rebooking the tapping.

All tapplings, pluggings and metering products can be arranged using easyACCESS. Work must be carried out in accordance with the Water Metering & Servicing Guidelines (see our website). Once all fees have been paid and you are ready to book your plumbing products, please contact Yarra Valley Waters contractor Mondo on 1300 735 328. A phone call is not required if products are New Estate Connections or Combo Drinking Water & Recycled Water. Please allow a minimum of 10 business days' notice when contacting Mondo.

All meters are supplied by Yarra Valley Water after payment of the relevant fees.

If the tapping and/or plugging is required to be performed outside of business hours, either at your request or as determined by Yarra Valley Water's plumbing contractor, an additional after hours fee will apply.

Meters are not permitted to be installed inside units/dwellings. In all situations where the meter is deemed inaccessible, either by your advice, or as determined by Yarra Valley Water plumbing contractor, remote read meters must be fitted at your cost. Remote read meters must be installed in the following circumstances: high rise developments; any water meter which is located where Yarra Valley Water will have to enter a building to read the meter; where access to the meter will be restricted by gates/fences. If you are aware that remote read meters will be required, please inform the easyACCESS staff at the time of booking.

For all tapplings and/or pluggings, it is the responsibility of the person performing the excavation to obtain a Road Opening Permit from the local municipal authority before any excavation work commences. All traffic management requirements contained in the Road Opening permit must be complied with. The excavation must expose the main at the tapping/plugging point and be made safe prior to the tapping / plugging appointment time. If you choose to have Yarra Valley Waters plumbing contractor carry out the excavation, Yarra Valley Water will organize the necessary permit at an additional cost on a per road opening basis.

Failure to comply with any of these requirements will result in the booking being cancelled and a rebooking fee will apply.

Yarra Valley Waters plumbing contractor can be contacted on 1300 735 328

Whether you have elected your plumber or Yarra Valley Water to carry out the excavation, please contact Yarra Valley Waters Plumbing Contractor Mondo on 1300 735 328 to schedule a date and time. Prior to our Plumbing Contractor attending on site to carry out the scheduled work you will be required to clearly mark your preferred location for the service. If the preferred location is not marked, the work will not be undertaken and you will incur a wasted site visit fee. Please note; bookings can take up to three (3) business days to generate after payment is made.

Should you wish to reschedule the booking, Yarra Valley Water's plumbing contractor can be contacted on 1300 735 328. If you cancel or reschedule a booking within 24 hours of the scheduled date / time a wasted site visit fee will apply. If you wish to cancel the booking you will need to contact Yarra Valley Water (if applicable), to seek a refund. A cancellation fee may apply.

METER ASSEMBLIES & POSITIONING

It is the responsibility of the private plumber to ensure that containment, zone and individual backflow prevention is provided.

Water meter assemblies:

- a) Must be within 2 metres of the title boundary that abuts the water main
- b) Must be fitted at right angles to the water main, in line with the tapping
- c) Must be fully supported with minimum ground clearance of 150mm and should not be >300mm from the finished ground level to the base of the assembly
- d) Must not be encased in concrete surrounds
- e) Must be readily accessible for reading, maintenance and replacement. If Yarra Valley Water deem meters to be inaccessible, remote meters may be required at additional cost to the customer
- f) Can be installed in utility rooms or meter cabinets located within a common access area and must be readily accessible, subject to Yarra Valley Water's approval

If meters need to be moved >600mm a plugging and re-tapping must be booked and the relevant fee paid.

Meters which are in a public space such as a reserve or school must be protected by an appropriate cage to prevent tampering.

Meters are not permitted to be installed in pits unless prior approval has been given by Yarra Valley Water.

Meter assemblies must adhere to the meter installation diagrams available on the Yarra Valley Water website (www.yvw.com.au) to ensure the installations meet the required standard.

REMOVAL OF WATER METERS

Only Yarra Valley Water's plumbing contractor is permitted to remove water meters.

If redevelopment of the site is occurring and the meter is no longer required, a plugging of the service must be arranged and the meter will be collected by our contractor at the time of the plugging.

DAMAGED OR STOLEN METERS

If the builder/plumber damage a meter or meter assembly, it is the responsibility of the builder/plumber to rectify these assets back to the same condition as at time of installation by Yarra Valley Water.

- Failure to do so will result in Yarra Valley Water making the necessary amendments and recovering these costs from the property owner.
- Repeat offences may result in the services being plugged and re-booking fees will apply to have the services reinstated

Stolen meters are to be reported to Yarra Valley Water faults and emergencies:

- Call **13 2762** (24 hrs).
- Replacement of stolen meters can take up to 10 days. If replacement is required more urgently, please advise the operator at the time of the call.
- Until the meter is replaced no connections between the supply and the dwelling are to be reinstated. No straight pieces or alternative connections are allowed to be installed.

Meter assemblies must adhere to Yarra Valley Water's metering technical drawings which can be found at www.yvw.com.au/help-advice/develop-build/plumbers/water-metering-and-servicing

The installation of pumps on any water service to boost pressure or fill storage tanks directly from a water main is prohibited. Pumps may only be installed on the outlets of storage tanks filled under mains pressure.

SEWER

Where a proposed development is to be constructed boundary to boundary and there is no compliant location for a sewer connection point within the property, Yarra Valley Water (YVW) approves the connection point of the YVW sewer to be located in a road reserve outside the property and raised to surface with an appropriate approved cover. The sewer connection point must meet the required clearances from proposed structures as per the Build Over Easement Guidelines. Approval may be required for private plumbing located in road reserves by Council or VicRoads. Any unused sewer connection points at the site must be cut and sealed by a YVW accredited live sewer contractor.

Properties being developed that are serviced by a combined drain shared with adjoining properties will require sewer works. Yarra Valley Water's development policy does not permit additional lots to connect to an existing combined drain. The developer must provide separate sewer connection points. This may require either the construction of new sewer connections or a sewer extension which will be at the developer's expense.

If this combined drain development requirement is not met a statement of compliance will not be issued to Council.

Ownership boundaries for the sewer connection point can be found at <https://www.yvw.com.au/faults-works/responsibilities/repair-responsibilities>

Following the completion of a new or altered property sewerage drain, a copy of the updated Property Sewerage Plan must be returned within 7 days to Yarra Valley Water easyACCESS@yvw.com.au.

Photographs of plans are not acceptable.

The existing sewer branch that is to service the proposed development must meet the requirements stated in WSA 02—2014-3.1 Sewerage Code of Australia, Melbourne Retail Water Agencies Edition - Version 2 - Clause 6.4.

If the existing sewer branch does not comply with these requirements, you will need to undertake additional sewer works which may include a sewer main extension, requiring lodgement of a new application and payment of additional fees.

Note for subdivisional developments where the sewer branch does not comply with these requirements, a statement of compliance will not be issued to Council until corrective action is undertaken and satisfactorily completed.

AMENDMENTS

We may amend these conditions by writing to you. We may do so if we consider that any change, or proposed change, to relevant laws or our regulatory obligations require an amendment to be made.

We may also amend these conditions from time to time if we consider that it is necessary to:

- ensure that we are able to continue to comply with any law relating to health, safety or the environment, or our agreement with our bulk supplier of sewage transfer and treatment services; or
- the health or safety of anyone; or
- any part of the environment; or
- any of our works.

INDEMNITY

You must indemnify Yarra Valley Water against:

- all damages, losses, penalties, costs and expenses whatsoever, which we suffer or incur; and
- all proceedings, prosecutions or demands brought or made against us by anyone, as a result of you failing to perform any of our obligations under these conditions, except to the extent that the failure has been caused by our negligence.

You must not bring any proceeding or make any demand against us for any damage, loss, cost or expense of any kind whatsoever which you incur, directly or indirectly, as a result of Yarra Valley Water amending these conditions.

You must pay us any costs we reasonably incur in:

- making good any damage to our assets or works directly or indirectly caused by your failure to comply with these conditions; and
- inspecting our assets or works to see if such damage has been caused.

CONDITIONS OF CONSENT

The following conditions are subject to Sections 136, 268, 269 and 270 of the Water Act 1989 covering conditions of subdivision, new connections and contributions for works.

CONDITIONS RELATING TO NEW CONNECTIONS / COMPLETION OF WORKS / ISSUE OF CONSENT

Approval is subject to the applicant applying for Build Over Easement conditions under Section 148 of the Water Act 1989 prior to works being commenced or subdivision being approved. This requirement and subsequent build over easement conditions will be recorded as an encumbrance against the property. This consent binds the owner(s) of the land and successors in title and is enforceable under Section 148 of the Water Act 1989.

This condition must be met before a Statement of Compliance can be issued.

All developments within our licensed area are subject to the payment of New Customer Contributions as set by the Essential Services Commission. These contributions are necessary as the development work you will be completing places increased demand on our hydraulic services. These funds are then used to further develop the network to meet the needs of the growing urban community. The fees for your development are detailed in the invoice/statement. Further details can be found by visiting the Essential Services Commission website at www.esc.vic.gov.au.

The New Customer Contribution fees remain valid for 90 days from the date of this letter and are based on the information provided in your application. Further fees may be imposed if it is found that this development involves works other than declared on your application. If there are changes to the details supplied or if the approval period expires, revised conditions of connection and additional fees will be applicable. If this occurs it will be necessary to resubmit a new application.

NOTE: These fees are for the creation of additional lots only and do not include any other works or products which may be required as a result of the development being carried out.

SUBDIVISIONAL CONDITIONS

We advise that should this development proceed to subdivision the plan of subdivision must include an Owners Corporation schedule. Should an Owners Corporation schedule not form part of the plan of subdivision, extensions to our sewer and water mains may be necessary, requiring the lodgement of a new application and payment of additional fees.

Water and sewerage services are required to be extended to each individual lot within the development. The extended sewerage property service drain must adequately control all lots via gravity.

Easements must be created over any existing or proposed Yarra Valley Water assets. Your surveyor will need to ensure that these easements are included on any plan of subdivision.

An encumbrance will be placed on lots in this subdivision advising prospective purchasers that the properties are serviced by shared sewer and/or water connections.

Yarra Valley Water will be unable to give consent to council to issue a Statement of Compliance until fees have been paid and all other conditions have been met.

4. The owner is solely responsible for, and indemnifies and releases and will keep indemnified and released YVW from and against all direct and indirect actions, claims, demands, cost or expenses made, sustained, incurred, brought or prosecuted or in any manner based upon, occasioned by, or attributable to any injury to any person (including illness or death) or loss of or damage to any property which may arise from, or as a result of the Owner's Works, including but not limited to being as a result of the design, construction, placement or presence of the Owner's Works.
5. The owner is solely responsible for, and indemnifies and releases and will keep indemnified and released YVW from and against all direct and indirect actions, claims, demands, cost or expenses made, sustained, incurred, brought or prosecuted or in any manner based upon, occasioned by, or attributable to YVW inspecting, constructing, maintaining, repairing or replacing any assets or other property of YVW beneath or in the vicinity of the Owners Works except to the extent caused by negligence of YVW.
6. YVW makes no warranty or representation and excludes all liability of any kind for the accuracy, adequacy or completeness of any plans or other information it has provided on sewer, water and other assets. The plans and any asset information accompanying this letter are issued solely as a guide for the investigation and identification of the assets specified and must not be used for any other purpose, including to identify any property boundaries, dimensions, structures or other assets. The location of all assets must be proven on site prior to the commencement of any works. Due to ongoing potential asset changes the plans or any other information provided should not be reused at a later date and new plans and asset information should be obtained.
7. The owner must complete and ensure the Owner's Works comply with all applicable laws and authorisations.

8. The owner is solely responsible and warrants the structural integrity and sufficiency of the Owner's Works, including any footings, having regard to the presence of YVW's assets and/or easements.
9. The owner permits YVW to enter into and upon the land and structures contained on the land, for the purpose of inspecting, constructing, maintaining, repairing or replacing assets or other property of YVW, and for that purpose to excavate through any part of the Owner's Works. YVW will not repair or reinstate the Owner's Works.
10. YVW's conditions of consent are binding upon all successors in title to the land. The owner must disclose these conditions to all prospective purchasers, mortgagees or other successors in title.
11. A failure to comply with YVW's conditions of consent will invalidate YVW's consent and render the owner liable for penalties pursuant to the Water Act 1989 which may include fines or imprisonment.
12. Should any monies become due to YVW from the owner pursuant to these terms and conditions, the owner must pay such monies within 30 days of receipt of a written notice from YVW.
13. Our imposition of conditions does not affect the rights of any other parties over the area in question.

This may require a sewer branch connection from an existing maintenance structure or a new maintenance structure.

If a new maintenance structure is required you must apply for conditions at Yarra Valley Water, details are available on the Yarra Valley Water website [easyACCESS Land Development Hub](#).

16. These conditions of consent will be disclosed to any person making an application for an information statement in relation to the land pursuant to section 158 of the Water Act 1989.
