Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings Safety, Enjoyment and Value, but all issues are relevant to each heading.

Safety

- Is there asbestos in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant defects e.g. cracking or salt damp? Have the wet areas been waterproofed?
- Is the property in a bushfire prone area?
- Are the electrical wiring, gas installation, plumbing and appliances in good working order and in good condition? Is a safety switch (RCD) installed? Is it working?
- Are there any prohibited gas appliances in bedrooms or bathrooms?
- Are smoke alarms installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a swimming pool and/or spa pool installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any termite or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other toxic termiticides?
- Has fill been used on the site? Is the soil contaminated by chemical residues or waste?
- Does the property use cooling towers or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any stormwater problems?
- Is the property in a flood prone area? Is the property prone to coastal flooding?
- Does the property have an on-site wastewater treatment facility such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a sewer mains connection available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near power lines? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any significant trees on the property?
- Is this property a unit on strata or community title? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of noise or the emission of materials or odours into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any illegal or unapproved additions, extensions or alterations to the buildings on the property?
- How energy efficient is the home, including appliances and lighting? What energy sources (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained mains water? Is a mains water connection available? Does the property have a recycled water connection? What sort of water meter is located on the property (a direct or indirect meter – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have alternative sources of water other than mains water supply (including bore or rainwater)? If so, are there any special maintenance requirements?

For more information on these matters visit www.cbs.sa.gov.au

PREScribed INFORMATION

Particulars relating to Environment Protection

Further information held by councils

Does the council hold details of any development approvals relating to—

- (a) commercial or industrial activity at the land; or
- (b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993*) or the *Planning, Development and Infrastructure Act 2016*?

*YES/NO

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a ***potentially contaminating activity*** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- (a) the approval of development by a council does not necessarily mean that the development has taken place;
- (b) the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
