FORM 1 - Vendor's Statement

(Section 7 Land and Business (Sale and Conveyancing) Act 1994)

Contents

Preliminary

Part A – Parties and land

Part B – Purchaser's cooling off rights and proceeding with the purchase

Part C – Statement with respect to required particulars

Part D – Certificate with respect to prescribed inquiries by registered agent

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

PART A – PARTIES AND LAND

1 Purchaser:

Address:

2 Purchaser's registered agent:

Address:

3 Vendor:

Madeleine Anne Murphy and Alex John Cailotto

Address:

13B Kingston Avenue, Seacombe Gardens SA 5047

4 Vendor's registered agent:

Magain Real Estate Happy Valley Pty Ltd T/A Magain Real Estate

Address:

Shop 15, Woodcroft Market Plaza, 217 Pimpala Road Woodcroft SA 5162

5 Date of contract (if made before this statement is served):

6 Description of the land:

[Identify the land including any certificate of title reference]

The land situated at 13B Kingston Avenue, Seacombe Gardens SA 5047 and being whole of the land in

Certificate of Title Volume 6254 Folio 852 and being whole of Lot 963 on Primary Community Plan 42273 in the

Area named Seacombe Gardens in the Hundred of Noarlunga

PART B – PURCHASER'S COOLING-OFF RIGHTS AND PROCEEDING WITH THE PURCHASE

To the purchaser:

Right to cool-off (section 5)

1 – Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS–

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2 – Time for service

The cooling-off notice must be served–

- (a) if this form is served on you before the making of the contract– before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract– before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 – Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 – Methods of service

The cooling-off notice must be–

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:

13B Kingston Avenue, Seacombe Gardens SA 5047

(being the vendor's last known address); or

- (c) transmitted by fax or email to the following fax number or email address:

08 8381 6222

(being a number or address provided to you by the vendor for the purpose of service of the notice); or

- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

Shop 15, Woodcroft Market Plaza, 217 Pimpala Road Woodcroft SA 5162

(being *the agent's address for service under the *Land Agents Act 1994*/~~an address nominated by the agent to you for the purpose of service of the notice~~).

Note–

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that –

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 – Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

(e) Details of conditions (if any) to which the exemption is subject:

**SCHEDULE - DIVISION 3****COMMUNITY LOTS AND STRATA UNITS****Matters to be considered in purchasing a community lot or strata unit**

The property you are buying is on strata or community title. There are **special obligations and restrictions** that go with this kind of title. Make sure you understand these. If unsure, seek legal advice before signing a contract. For example:

Governance

You will automatically become a member of the **body corporate**, which includes all owners and has the job of maintaining the common property and enforcing the rules. Decisions, such as the amount you must pay in levies, will be made by vote of the body corporate. You will need to take part in meetings if you wish to have a say. If outvoted, you will have to live with decisions that you might not agree with.

If you are buying into a mixed use development (one that includes commercial as well as residential lots), owners of some types of lots may be in a position to outvote owners of other types of lots. Make sure you fully understand your voting rights, see later.

Use of your property

You, and anyone who visits or occupies your property, will be bound by rules in the form of **articles or by-laws**. These can restrict the use of the property, for example, they can deal with keeping pets, car parking, noise, rubbish disposal, short-term letting, upkeep of buildings and so on. Make sure that you have read the articles or by-laws before you decide whether this property will suit you.

Depending on the rules, you might not be permitted to make changes to the exterior of your unit, such as installing a television aerial or an air-conditioner, building a pergola, attaching external blinds etc without the permission of the body corporate. A meeting may be needed before permission can be granted. Permission may be refused. Note that the articles or by-laws **could change** between now and when you become the owner: the body corporate might vote to change them. Also, if you are buying before the community plan is registered, then any by-laws you have been shown are just a draft.

Are you buying a debt?

If there are unpaid contributions owing on this property, you can be made to pay them. You are entitled to **know the financial state of the body corporate** and you should make sure you see its records before deciding whether to buy. As a prospective owner, you can write to the body corporate requiring to see the records, including minutes of meetings, details of assets and liabilities, contributions payable, outstanding or planned expenses and insurance policies. There is a fee. To make a request, write to the secretary or management committee of the body corporate.

Expenses

The body corporate can **require you to maintain your property**, even if you do not agree, or can carry out maintenance and bill you for it.

The body corporate can **require you to contribute** to the cost of upkeep of the common property, even if you do not agree. Consider what future maintenance or repairs might be needed on the property in the long term.

Guarantee

As an owner, you are a **guarantor** of the liabilities of the body corporate. If it does not pay its debts, you can be called on to do so. Make sure you know what the liabilities are before you decide to buy. Ask the body corporate for copies of the financial records.

Contracts

The body corporate can make contracts. For example, it may engage a body corporate manager to do some or all of its work. It may contract with traders for maintenance work. It might engage a caretaker to look after the property. It might make any other kind of contract to buy services or products for the body corporate. Find out **what contracts the body corporate is committed to and the cost**.

The body corporate will have to raise funds from the owners to pay the money due under these contracts. As a guarantor, you could be liable if the body corporate owes money under a contract.

Buying off the plan

If you are buying a property that has not been built yet, then you **cannot be certain** what the end product of the development process will be. If you are buying before a community plan has been deposited, then any proposed development contract, scheme description or by-laws you have been shown could change.

Mixed use developments - voting rights

You may be buying into a group that is run by several different community corporations. This is common in mixed use developments, for example, where a group of apartments is combined with a hotel or a group of shops. If there is more than one corporation, then you should not expect that all lot owners in the group will have equal voting rights. The corporations may be structured so that, even though there are more apartments than shops in the group, the shop owners can outvote the apartment owners on some matters. Make enquiries so that you understand how many corporations there are and what voting rights you will have.

Buyers information notice

Land and Business (Sale and Conveyancing) Act 1994 section 13A
Land and Business (Sale and Conveyancing) Regulations 2010 regulation 17

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services recommend that you check the website: www.cbs.sa.gov.au

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all of the issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property eg sheds and fences?
- Does the property have any significant **defects** eg **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring**, **gas installation**, **plumbing and appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a flood **prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, **downpipes** and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any significant trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How energy **efficient** is the home, including appliances and lighting? What **energy sources** (eg electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Is the property connected to a water meter that is also serving another property?
- Are there water taps outside the building? Is there a watering system installed? Are they in good working order and in good condition?
- Does the property have **alternative sources** of water other than mains water supply (including **bore or rainwater**)? If so, are there any special maintenance requirements?

For more information on these matters visit: www.cbs.sa.gov.au

Disclaimer: There may be other issues relevant to the purchase of real estate. If you are unable to ascertain enough information about the questions raised in this form and any other concerns you may have we strongly recommend you obtain independent advice through a building inspection, a lawyer, and a financial adviser.

Does the council hold details of any development approvals relating to:

- commercial or industrial activity at the land; or
- a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

NO

Description of the nature of the development(s) approved:

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- *the approval of development by a council does not necessarily mean that the development has taken place;*
- *the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Harry Gunn, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

DEVELOPMENT PLAN CONSENT

GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

Conditions of Consent:

- (1) Except where minor amendments may be required by other relevant Acts, or by conditions imposed by this application, the development shall be undertaken in strict accordance with the details and plans submitted in Development Application No.100/297/2020 (SCAP Reference: 100/C025/20) except where varied by the following conditions of consent.
- (2) All devices/treatments proposed and nominated on the approved plans, and forming part of the Development Application, to protect the privacy of adjoining properties shall be installed and in use prior to occupation of the premises and maintained for the life of the building.
- (3) Stormwater from the structure approved herein shall be collected and directed into a detention tank (or tanks) which are sized and installed in accordance with the specifications contained in Council's information guide titled "[Stormwater Detention / Retention](#)", to the reasonable satisfaction of the Council.
- (4) All stormwater from buildings and paved areas shall be disposed of in accordance with the approved plans and details prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (5) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (6) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.
- (7) All car parking areas, driveways and vehicle manoeuvring areas must be constructed, sealed and drained in accordance with recognised engineering practices prior to the

occupation of the premises or the use of the development herein approved and maintained in a good condition at all times.

- (8) Party/common wall(s) associated with the development proposed to be built on the land shall be accurately identified on the plan of division prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.
- (9) All buildings and all deleterious materials such as concrete slabs, footings, retaining walls, irrigation, water or sewer pipes and other rubbish shall be cleared from the subject land, prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.
- (10) The final survey plan shall be available to the Council, prior to the Council advising the Development Assessment Commission that it has no objection to the issue of a certificate pursuant to Section 51 of the Development Act.

LAND DIVISION CONSENT

GRANTED

Conditions of Consent

- (1) The financial requirements of SA Water shall be met for the provision of water supply and sewerage services.

On receipt of the developer details and site specifications an investigation will be carried out to determine if the connections to your development will be standard or non standard fees.

The developer must inform potential purchasers of the community lots of the servicing arrangements and seek written agreement prior to settlement, as future alterations would be at full cost to the owner/applicant.

- (2) Payment of \$7616 into the Planning and Development Fund (1 allotment(s) @ \$7616/allotment).

Payment may be made by credit card via the internet at www.edala.sa.gov.au or by phone (7109 7018), by cheque payable to the Department of Planning, Transport and Infrastructure and marked "Not Negotiable" and sent to GPO Box 1815, Adelaide 5001 or in person, at Level 5, 50 Flinders Street, Adelaide.

- (3) A final plan complying with the requirements for plans as set out in the Manual of Survey Practice Volume 1 (Plan Presentation and Guidelines) issued by the Registrar General to be lodged with the State Commission Assessment Panel (SCAP) for Land Division Certificate purposes.

Note: The SA Water Corporation will, in due course, correspond directly with the applicant / agent regarding this land division proposal.

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) The applicant is reminded to contact the Council when all of the Council's conditions have been complied with and accordingly, the Council will advise the Development Assessment Commission that it has no objection to the issuance of a certificate pursuant to Section 51 of the Development Act.
- (2) This approval does not relate to the removal of, or to any tree damaging activity to, any regulated or significant tree (as defined under the Development Act 1993) that may be located on the subject site or adjacent land. If any tree-damaging activity is anticipated, a separate Development Application is required to be lodged prior to any such damage occurring.

Tree-damaging activity means the killing, destruction or removal of a tree, the severing of branches, limbs, stems or trunk of a tree, ringbarking, topping or lopping of a tree or other substantial damage (including damage to root systems of trees).

For your information, a regulated tree is any tree that has a trunk circumference of 2.0m or more - or, in the case of trees with multiple trunks, that have trunks with a total trunk circumference of 2.0m or more and have an average circumference of 625mm or more - measured at a point 1m above natural ground level. A significant tree is any tree that has a trunk circumference of 3.0m or more – or, in the case of trees with multiple trunks, that have trunks with a total circumference of 3.0m or more and have an average circumference of 625mm or more – measured at a point 1m above natural ground level.

Should regulated or significant tree(s) exist on the subject site, care must be taken during demolition/construction of the proposed buildings to ensure no damage is done to that/those tree(s) (including their root systems) unless otherwise approved by Council. For this reason, a protective barrier should be erected at the dripline of the tree, and that

barrier should be maintained for the duration of the demolition/construction. It is also recommended that you seek the advice of a qualified Arborist.

- (3) The applicant is reminded that Development Approval from the Council is required for any retaining wall over one metre in height, any masonry fence over one metre in height, any non-masonry fence (e.g. colorbond, wood paling, brush etc.) over 2.1 metres in height, and any retaining wall with a fence on top with a total height over 2.1 metres in height (measured from the lower of the two adjacent ground levels).
- (4) Demolition of the existing dwelling and/or other structures on the land cannot occur until a separate application has been lodged, assessed by and approved by the Council.
- (5) Noise from devices and/or activities on the subject site should not impair or impinge on the amenity of neighbours at any time. The Environment Protection Authority has restrictions relating to the control of noise in the urban environment. Further information is available by phoning the Environment Protection Authority on 8204 2004.
- (6) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (7) Any existing driveway crossovers that become redundant as a result of a development must be reinstated to match the existing kerb profile along the road frontage of the property.
- (8) Any portion of Council's infrastructure damaged as a result of work undertaken on the allotment or associated with the allotment must be repaired/reinstated to Council's satisfaction at the developer's expense.
- (9) The Applicant is reminded that the subject land is located within a Noise and Air Emissions overlay and that the Ministers Specification SA 78B for Construction requirements for the control of External Sound may apply.
- (10) The Applicant is advised that the subject land is located within an Air and Noise Emissions Development Plan Overlay. The Minister Specification SA 78B Construction Requirements for the Control of External Sound may apply.
- (11) The owner is advised that, should a licensed builder or contractor be engaged to carry out building works greater than \$12,000 in value, that builder or contractor will be required to supply to the Council a Certificate of Indemnity Insurance prior to commencement of that work.

- (12) On completion of building work, the Development Act requires the owner of the land on which the building work is carried out to provide to the relevant authority a signed Statement of Compliance by either a registered building work supervisor or private certifier declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 2008).
- (13) Council requires at least one business days' notice of the following stages of building work:
- a. Prior to the placement of any concrete for footings or other structural purposes. Note where an engineer carries out an inspection, Council will also require a copy of the inspection certificate, and;
 - b. at the completion of wall and roof frames prior to the fixing of any internal linings.
- (14) You are undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 1993, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.

Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

**(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website www.marion.sa.gov.au).*

Advisory Notes:

- (1) The State Planning system is currently in the process of significant planning reforms. The Planning and Design Code will replace all current Development Plans. Therefore, some areas may see shifts in the principles governing development in their area.

The Planning & Design Code will become operational at the discretion of the Minister for Planning. It is anticipated this will occur in early 2021.

Further details in relation to the Planning Reforms can be found at
https://www.saplanningportal.sa.gov.au/planning_reforms

Should these timeframes not be achieved, your Approval may lapse and a new development application must be lodged, unless an extension is obtained. Should a request for extension be made after the implementation of the new system, your request will be subject to the transitional provisions of the Planning, Development and Infrastructure Act 2016.

- (2) Please note that this Notice has been issued in accordance with Regulation 42(2) of the Development Regulations 2008, on the basis that the private certifier has issued a Certificate of Consistency in accordance with Division 2 clause 92(2)(e) of the Development Regulations 2008. In the event there is an inconsistency, or inconsistencies, Council advises that the plans granted Development Plan Consent take primacy as the approved plans/documents.

Please be advised that in accordance with Regulation 42(4) and 42(5) the plans accompanying the Decision Notification Form have been stamped by the private certifier as the relevant authority.

- (3) Developers are responsible for providing telecommunications infrastructure in their developments. To provide this infrastructure, you need to contract a carrier to install telecommunications infrastructure in your new development.

Developers can choose any carrier to service their development. If they don't choose another carrier:

- nbn is the Infrastructure Provider of Last Resort for larger developments (100 lots or more), and for all developments in areas where nbn is rolling out.
- Telstra is the Infrastructure Provider of Last Resort for smaller developments (less than 100 lots), until the nbn rolls out in the area.

Developers are asked to apply at least 6 months before the required date of service, to ensure a connection is ready when residents move in

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0289.

Approval Timeframes:

- (1) The proposed development must:
- receive full Development Approval within twelve (12) months of receiving Development Plan Consent; and
 - be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
 - an application for Section 51 Clearance is lodged within twelve (12) months of the date of receiving Development Approval
 - Section 51 Clearance is received within three (3) years of the date of receiving Development Approval
 - be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

IMPORTANT INFORMATION *(Last updated 2/6/05)*

The following matters may influence any consent or approval that has been granted:

- **Other Approvals may be required**

The granting of this consent or approval does not remove the need for the applicant to obtain all other consents that may be required by any other legislation or regulation, encumbrance, land management agreement or similar. It also does not imply that the building will comply with the provisions of the Disability Discrimination Act 1993. The Applicant's attention is particularly drawn to the need to consult electricity suppliers in relation to high voltage power lines and required clearance distances to buildings.

- **Public and Environmental Health**

The Public and Environmental Health Act requires that:

- proper sanitary facilities must be existing and available or be provided to all building sites (i.e. a water flush chemical toilet or toilet connected to sewer or a septic tank);
- an appropriate waste receptacle/enclosure be provided to contain all builders' waste; and
- the site is maintained in a clean condition, free of litter, at all times.

The applicant is advised (and should in turn advise the property owner, builders and all contractors) of their responsibility under the Environment Protection Act 1993 to not harm the environment. Specifically:

- paint, plaster, concrete and brick wastes, and wash waters should not be discharged to the stormwater system or onto land where it is reasonably likely to enter any waters;
- litter should be appropriately stored on site pending removal;
- excavation and site disturbance should be limited, and in particular dust generation should be minimised;
- entry/exit points to the site should be managed to prevent soil being carried off site by vehicles;
- sediment barriers should be used (particularly on sloping sites).

On the spot fines apply for breaches. Further information is available by contacting the EPA on 8204 2000.

- **Works on Council owned land, including footpaths**

The applicant is advised that any works undertaken on Council owned land (including, but not limited to, works relating to crossovers, driveways, footpaths, street trees and stormwater connections) will require the approval of the Council's Infrastructure Department, prior to any works being undertaken. Driveway Access Permit Forms, in particular, must be completed and approved prior to driveway construction occurring. Further information may be obtained by phoning 8375 6600.

Council has requirements for all works that occur in the verge area. In particular, Council requires all redundant driveways to be closed and all new driveways to grade toward the road between the kerb and the front boundary of the property with the level at the front property boundary being between 50mm and 150mm above the top of the kerb, or, as approved by Council.

If damage to kerbs, watertables, footpaths etc is present prior to construction commencing, it is advisable to supply Council with dated photos and measurements of defects; otherwise it will be assumed that all damage was caused during construction. Any damage during construction will be the responsibility of the builder/site owner to remedy. Failure to do so will result in such repairs being carried out by the Council and charged to the builder.

All works on Council owned land required as part of this development are likely to be at the applicant's cost.

Material stockpiles and temporary toilet facilities should all be placed on site and not on the footpath or public roads or reserves. Failure to keep the road reserve clean and suitable for pedestrian and vehicular traffic may result in Council or other agencies taking action under the Local Government Act, the Public and Environmental Health Act, and/or the Environment Protection Act.

- **Other**

Property owners are responsible for notifying Council of any **change in ownership** and/or any **change of property owner's mailing address**. This notification must be received in writing or by facsimile by Council's Rates Department (fax no: 8375 6888). Failure to do so may result in rates notices not being received and fines being imposed.

Existing vegetation to be retained and/or **planting** to occur **in the vicinity of building works** may alter soil conditions and/or affect buildings. The applicant is therefore urged to seek expert advice from suitably qualified persons before designing footings, undertaking construction, and/or planting any vegetation in the vicinity of any building.

The Council has not surveyed the subject land and has, for the purpose of its assessment, assumed that all dimensions and other details provided by the applicant are accurate. It is recommended that the applicant **employ a licensed surveyor** to carry out an identification survey and peg the true boundaries prior to construction commencing. Any discrepancies identified between the dimensions on the approved drawings and the true survey must be reported to the Council for advice on implications on the proposed development. Where a solid wall is proposed on a boundary, it is necessary for any relevant sections of fencing to be removed. It is advisable to gain permission from the adjoining owner(s) before moving or altering any fencing or before using a neighbour's property for access. Owners/applicants should also be aware of their obligations under the Fences Act to notify neighbours before carrying out fencing work on boundaries.

The EPA Information Brochure "Construction Noise" outlines recommended hours of operation outside which noisy activities should not occur. Further information is available by phoning the Environment Protection Authority on 8204 2000.

Development No: 100/2020/297

Condition of Consent

1. The Builder shall provide a copy of the Certificate(s) of Building (Housing) Indemnity Insurance in relation to domestic building work required under Section 34 of the Building Work Contractors Act, 1995 to the Council prior to commencement on site.
Development Regulations 2008, Regulation 21

Notes

Easements of support in respect to the party wall shall be created over their respective land and these easements shall be registered under the Real Property Act 1886 or under the Registration Of Deeds Act 1935 (as the case may require).

All footings along the side allotment boundaries shall be founded a minimum of 600mm into firm natural ground.

“The Truss Manufacturer has designed the trusses in this building using the Plasterboard Ceiling as a bottom chord restraint for the Trusses. Where a penetration is required in the ceiling for down lights , air conditioners or other such penetration, guidance must be sought from the Truss Manufacturer, as to the amount & placement of the penetration”.

“The Truss Manufacturer in designing the trusses in this building has made no allowance for Air conditioners, Solar Panels, Hot Water Units or other such loads. Guidance must be sought from the Truss Manufacturer where such loads are contemplated”.

The roof trusses for the sheet / tile roof shall be erected, installed and braced in accordance with AS4440 and the manufacturer’s specification.

All engineering design details and calculations shall take precedence over any conflicting framing documentations.

The distribution of articulation joints to the proposed masonry shall be in accordance with the Engineers documentation, Job Number HWC-2022-CJ Res 3 and Res 4, Rev A, Dated 7 Sep. 20.

The party wall between dwellings shall extend to the underside of the roof cladding and have all articulation joints, eaves spaces and external wall cavities adequately packed with fire resistant material.

Mechanical ventilation must be provided to the toilet / bathroom / laundry; which must exhaust directly to the outside of the building; or into the roof space provided it has adequately ventilated open eaves, and / or roof vents.

A non slip finish or suitable non-skid strip must be provided for the stairs / steps and landings.

Suitable overflow provisions must be provided to all eaves gutters in accordance with NCC-Table 3.5.3.1e.

Set-off dimensions shall be from the allotment boundaries and not necessarily the fence lines.

A person proposing to undertake or undertaking building work on land (or who is in charge of such work) must give Council notice at stages prescribed in Regulation 74.

As the building owner proposes to carry out work of a prescribed nature in accordance with the building regulations, that is work which affects the stability of other land or premises, the building owner, must, at least 28 days before the building work is commenced cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work, as required by Section 60.

All timbers exposed to the weather or in contact with the ground shall be durability class 1 or 2 (AS1720) or shall be adequately treated with preservative (AS1604). All nails used for framing anchor and straps shall be corrosion protected. Nails used in joints that are continuously damp or exposed to the weather shall be hot-dip galvanized, stainless steel or monel metal.

The roof trusses for the tiled/sheet roof shall:

- be a proprietary product designed using certified software and manufactured by a licensed manufacturer to the provision of AS1720.1 and AS1649,
- have the top and bottom chords and webs restrained in accordance with the requirements of the truss design parameters
- where battens terminate at a truss (ie gable truss, hip truss, etc) the battens shall either continue past the face of the truss by at least 75mm or the truss shall be provided with blocking, spacers or equivalent
- where bottom chord and web restrains are joined they shall be overlapped at the truss (with the ends continuing past the face of the truss by at least 75mm)
- be provided with top and bottom chord bracing in accordance with AS4440 and the manufacturer's specification,
- be stored, erected and installed in accordance with AS4440 and the manufacturer's specification.

Structural timbers members that are not protected from weather must be of a suitable durability class or preservative treated to hazard level H3 in accordance with AS1604.

The assessment of the timber framing has been based on the understanding that the timber to be used for all structural elements has a minimum joint strength group of J4 or JD4.

Pursuant to Section 53A of the Development Act 1993 it is considered that, from the documentation submitted the proposed building appears safe and of a proper structural standard.

This application has been assessed on the understanding that the internal stairway is to be strictly in accordance with standard details from Top Stairs or Stairloc. Any alteration to these standard details shall require a separate or amended consent.

The head height in all stairways shall be a minimum of 2.0 metres measured vertically above the nosing line.

The height of the damp proof courses or flashing shall be no less than 275mm above the adjacent finished ground level for all walls along the allotment boundary and 75mm above the finished paved or concrete areas graded no steeper than 1 in 20 for the first metre away from the building for all other walls.

All glazing shall be in accordance with AS 1288 & AS 2047, including safety glass for full height windows, glazed doors, side panels and windows located over or adjacent to a bath/shower.

A person must not occupy a Class 1a building under the Building Code before a notice of completion of building work is given. The relevant person (a licensed builder or if no such builder exists, a registered building work supervisor or a private certifier) must provide a written statement to the relevant authority in accordance with the requirements of regulation 83AB. This statement must declare that the building work carried out on the building is in accordance with the relevant approval (disregarding any variations of a minor nature which has no adverse effect on the structural soundness or safety of the building, or on the health of the occupants of the building, or any variation undertaken with the written consent of the relevant authority).

The face of the external boundary wall shall be on the boundary with no portion of the structure or the attachments to the structure to extend over that boundary.

The onus of proof of the boundary line shall rest with the building owner. This could necessitate a survey being carried out by a licensed surveyor. The building owner will require the neighbour's approval to enter their land to carry out any work.

No portion of the structure or the attachments to the structure shall extend over the property boundary.

The discharge of storm-water along council land requires the consent of the council prior to the commencement of site-works (seek advice from Council's Engineering Department).

All roof & surface storm-water must be disposed of in a way that will not cause damage to the building and not cause damage or nuisance to any other property of building.

The roof & surface storm-water drainage system must be constructed in accordance with AS/NZS 3500.3: Part 3 – Storm-water drainage, or AS/NZS 3500.5 Domestic installations, Section 5 – Storm-water drainage. Provision also shall be made for overflow of all gutters in accordance with the requirement of the BCA.

The box gutter, rain-head and overflow shall be constructed in accordance with AS/NZS 3500.3.2 – Storm-water drainage. The hydraulic capacity of the overflow device shall be not less than the design flow of the associated gutter outlet.

The proposed building(s) must be protected against attack by subterranean termites in accordance with AS3660.1. The owner must be aware that a durable notice must be permanently fixed to the building in a prominent location, such as a metre box or the like, indicating (i) The method of termite risk management, and (ii) The date of installation of the system, and (iii) where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label, and (iv) The installer's or manufacturer's recommendations for the scope and the frequency of future inspections for termite activity.

CONSTRUCTION AT OR NEAR BOUNDARY:

A perimeter barrier shall be installed to the construction at or near the boundary. Building owners should be aware that this type of construction could result in a greater risk of termite entry due to one or a combination of the following reasons:

- (a) Concealed entry by termites occurring to the structure because of the specific construction method used.
- (b) Lack of access for the installation of a barrier during construction.
- (c) Lack of access for inspection and maintenance.
- (d) The actions of adjoining owners, which may compromise the effectiveness of the barrier after completion of the construction phase.

NOTES: (1) Where construction at or near the boundary is carried out, it may not be possible to install a barrier system as specified in this Standard. These situations may include duplexes, villas, townhouses, parapet walls, buildings with zero setbacks to an allotment boundary on separate title allotments, and the like.

(2) Where a barrier system can not be provided in accordance with this Standard, full documentation on the limitations of the barrier system installed should be provided to the building owner (see Appendix A of A3660.1). Where possible, more frequent inspections should be undertaken.

Building work adjacent to a property boundary and / or existing structure is proposed and this may compromise the effectiveness of the termite barrier. Documentation on the limitations of the termite barrier installed in this regard should be provided to the building owner.

The footing system has not been designed for **FUTURE** tree effects. (Future planting may have an impact on the performance of the footing system. For further information, refer to the Footing Construction Report or seek advice from the design engineer).

The fire hazard properties of materials within the proposed buildings shall comply with BCA-Part 3.7.1.9 (sarking type materials in the roof shall have a flammability index not greater than 5 and flexible ductwork used for the transfer of products initiating from a heat source that contains a flame shall comply with the fire hazard properties set out in AS 4254).

IMPORTANT: This consent does not imply compliance with the Electricity Act, 1996 as amended (building within prescribed distances of adjacent power lines), the Gas Act 1997, the Environment Protection Act 1993, the Waterworks Act, the Telecommunications Act, the Occupational Health, Safety & Welfare Act, the (State) Equal Opportunity Act, 1984, or with the Commonwealth Disability Discrimination Act, 1993 as amended or with any of the regulations under those Acts. It is the responsibility of the owner and the person erecting the building to ensure compliance with same.

Airport Building Heights (Regulated) (All structures over 110 metres)

The Airport Building Heights (Regulated) Overlay seeks to ensure building height does not pose a hazard to the operation and safety requirements of commercial and military airfields.

Affordable Housing

The Affordable Housing Overlay seeks to ensure the integration of a range of affordable dwelling types into residential and mixed use development.

Hazards (Flooding - General)

The Hazards (Flooding - General) Overlay seeks to minimise impacts of general flood risk through appropriate siting and design of development.

Noise and Air Emissions

The Noise and Air Emissions Overlay seeks to protect new noise and air quality sensitive development from adverse impacts of noise and air emissions.

Prescribed Wells Area

The Prescribed Wells Area Overlay seeks to ensure sustainable water use in prescribed wells areas.

Regulated and Significant Tree

The Regulated and Significant Tree Overlay seeks to mitigate the loss of regulated trees through appropriate development and redevelopment.

Stormwater Management

The Stormwater Management Overlay seeks to ensure new development incorporates water sensitive urban design techniques to capture and re-use stormwater.

Traffic Generating Development

The Traffic Generating Development Overlay aims to ensure safe and efficient vehicle movement and access along urban transport routes and major urban transport routes.

Urban Tree Canopy

The Urban Tree Canopy Overlay seeks to preserve and enhance urban tree canopy through the planting of new trees and retention of existing mature trees where practicable.

COMMUNITY TITLES ACT 1996

BY-LAWS

COMMUNITY CORPORATION NO 42273 INCORPORATED

IMPORTANT NOTICE

These by-laws bind the Community Corporation, the Owners of the Community Lots and any persons entering the Community Parcel.

These by-laws relate to the control and management of the common Property and the Community Lots and such as may only be amended or revoked by special resolution by the Community Corporation in accordance with Section 39 of the Community Titles Act and Regulations.

1. INTERPRETATION

In these by-laws;-

"Act" means the *Community Titles Act 1996*, or as it may be amended from time to time.

"a lot" means land divided into a Community Lot or a Development Lot, under the Act.

"community parcel" means the land divided by a plan of community division but does not include a street, road, thoroughfare, reserve or other similar open space vested in a council or prescribed authority or that has reverted to the Crown;

"corporation" means the community corporation established when the plan of community division was deposited in the Lands Titles Registration Office and entitled Community Corporation No. 42273 Incorporated.

"council" means the municipal council or the district council within which the lot and community parcel is located.

"motor vehicle" means a vehicle as defined under the *Road Traffic Act 1961*.

"occupier" of a lot means a person who occupies the lot on a temporary or permanent basis (either solely or jointly with other persons) and includes

- a) a person who is unlawfully in occupation of a lot.
- b) an invitee of the owner or occupier.
- c) if the lot is unoccupied, the owner of the lot.

"ordinary resolution" of a community corporation means a resolution passed at a properly convened meeting of the corporation by a simple majority of the votes of members present and voting on the resolution.

"person" means an occupier, the owner, residents, invitees and any member of the public.

Notices

Notices are printed under arrangement with organisations having some potential interest in the subject land. You should contact the identified party for further details.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

OFFICIAL: Sensitive

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

CERTIFICATE OF LAND TAX PAYABLE

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
