

FORM 1 - Vendor's Statement

(Section 7 Land and Business (Sale and Conveyancing) Act 1994)

Contents

Preliminary

Part A – Parties and land

Part B – Purchaser's cooling off rights and proceeding with the purchase

Part C – Statement with respect to required particulars

Part D – Certificate with respect to prescribed inquiries by registered agent

Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

PART A – PARTIES AND LAND

1 Purchaser:

Address:

2 Purchaser's registered agent:

Address:

3 Vendor:

ROBERT PHILIP ASHLEY

Address:

39 Woodend Road, Sheidow Park SA 5158

4 Vendor's registered agent:

Magain Real Estate Happy Valley Pty Ltd T/A Magain Real Estate

Address:

Shop 2, Happy Valley Shopping Centre, 50 Kenihans Road Happy Valley SA 5159

5 Date of contract (if made before this statement is served):

6 Description of the land:

[Identify the land including any certificate of title reference]

The land situated at 39 Woodend Road, Sheidow Park SA 5158 and being whole of the land in Certificate of Title Volume 6044 Folio 322 and being whole of Allotment 2 on Deposited Plan 82305 in the Area named Sheidow Park in the Hundred of Noarlunga

PART B – PURCHASER'S COOLING-OFF RIGHTS AND PROCEEDING WITH THE PURCHASE

To the purchaser:

Right to cool-off (section 5)

1 – Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS–

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2 – Time for service

The cooling-off notice must be served–

- (a) if this form is served on you before the making of the contract– before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract– before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 – Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 – Methods of service

The cooling-off notice must be–

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:

39 Woodend Road, Sheidow Park SA 5158

(being the vendor's last known address); or

- (c) transmitted by fax or email to the following fax number or email address:

danielle@magain.com.au

(being a number or address provided to you by the vendor for the purpose of service of the notice); or

- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

Shop 2, Happy Valley Shopping Centre, 50 Kenihans Road Happy Valley SA 5159

(being *the agent's address for service under the *Land Agents Act 1994*/an address nominated by the agent to you for the purpose of service of the notice).

Note–

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that –

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 – Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

Buyers information notice

Prescribed notice to be given to purchaser

Before you buy a home there are a number of things that you should investigate and consider. Though it may not be obvious at the time, there could be matters that may affect your enjoyment of the property, the safety of people on the property or the value of the property.

The following questions may help you to identify if a property is appropriate to purchase. In many cases the questions relate to a variety of laws and standards. These laws and standards change over time, so it is important to seek the most up to date information. Various government agencies can provide up to date and relevant information on many of these questions. To find out more, Consumer and Business Services (CBS) recommends you check the website: www.cbs.sa.gov.au.

Consider having a professional building inspection done before proceeding with a purchase. A building inspection will help you answer some of the questions below.

The questions have been categorised under the headings **Safety**, **Enjoyment** and **Value**, but all issues are relevant to each heading.

Safety

- Is there **asbestos** in any of the buildings or elsewhere on the property e.g. sheds and fences?
- Does the property have any significant **defects** e.g. **cracking** or **salt damp**? Have the wet areas been waterproofed?
- Is the property in a **bushfire** prone area?
- Are the **electrical wiring**, **gas installation**, **plumbing** and **appliances** in good working order and in good condition? Is a **safety switch** (RCD) installed? Is it working?
- Are there any prohibited **gas appliances** in bedrooms or bathrooms?
- Are **smoke alarms** installed in the house? If so, are they hardwired? Are they in good working order and in good condition? Are they compliant?
- Is there a **swimming pool and/or spa pool** installed on the property? Are there any safety barriers or fences in place? Do they conform to current standards?
- Does the property have any **termite** or other pest infestations? Is there a current preventive termite treatment program in place? Was the property treated at some stage with persistent organochlorins (now banned) or other **toxic** termiticides?
- Has fill been used on the site? Is the soil contaminated by **chemical residues** or waste?
- Does the property use **cooling towers** or manufactured warm water systems? If so, what are the maintenance requirements?

Enjoyment

- Does the property have any **stormwater** problems?
- Is the property in a **flood prone** area? Is the property prone to coastal flooding?
- Does the property have an on-site **wastewater treatment facility** such as a septic tank installed? If so, what are the maintenance requirements? Is it compliant?
- Is a **sewer mains connection** available?
- Are all gutters, downpipes and stormwater systems in good working order and in good condition?
- Is the property near **power lines**? Are there any trees on the property near power lines? Are you considering planting any trees? Do all structures and trees maintain the required clearance from any power lines?
- Are there any **significant** trees on the property?
- Is this property a unit on **strata or community title**? What could this mean for you? Is this property on strata or community title? Do you understand the restrictions of use and the financial obligations of ownership? Will you have to pay a previous owner's debt or the cost of planned improvements?
- Is the property close to a hotel, restaurant or other venue with entertainment consent for live music? Is the property close to any industrial or commercial activity, a busy road or airport etc that may result in the generation of **noise** or the **emission of materials or odours** into the air?
- What appliances, equipment and fittings are included in the sale of the property?
- Is there sufficient car parking space available to the property?

Value

- Are there any **illegal or unapproved additions**, extensions or alterations to the buildings on the property?
- How **energy efficient** is the home, including appliances and lighting? What **energy sources** (e.g. electricity, gas) are available?
- Is the property connected to SA Water operated and maintained **mains water**? Is a mains water connection available? Does the property have a **recycled water** connection? What sort of water meter is located on the property (a **direct or indirect meter** – an indirect meter can be located some distance from the property)? Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Does the council hold details of any development approvals relating to:

- a) commercial or industrial activity at the land; or
- b) a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

YES

Description of the nature of the development(s) approved: Consent to use part of an existing wholesale plant nursery for retail sales

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- the approval of development by a council does not necessarily mean that the development has taken place;*
 - the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*
-

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Nathalie Pfeiffer, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

DEVELOPMENT APPLICATION **NUMBER:** 100/172/2013
DATED: 08/02/2013
REGISTERED ON: 05/03/2013

LOCATION OF PROPOSED DEVELOPMENT
39 Woodend Road SHEIDOW PARK 5158 Lot: 2 DP: 82305 CT: 6044/322

DESCRIPTION OF PROPOSED DEVELOPMENT
Dwelling Addition - Verandah

In respect of this proposed development you are informed that:

NATURE OF DECISION	DECISION	DATE OF DECISION	NUMBER OF CONDITIONS
Development Plan Consent	Granted	19/02/2013	4
Building Rules Consent	Granted (by Private Certifier)	01/03/2013	2
DEVELOPMENT APPROVAL	Granted	05/03/2013	6

The building classification under the Building Code is Class 10A

Conditions imposed on this consent and the reasons for imposing those conditions are set out in the attached sheet(s). Important information that may affect this consent can also be found under 'NOTES' and on the back of this page.

DEVELOPMENT APPLICATION NUMBER: 100/172/2013
APPLICANT: SA Quality Home Improvements
LOCATION: 39 Woodend Road SHEIDOW PARK 5158
Lot: 2 DP: 82305 CT: 6044/322
DESCRIPTION OF DEVELOPMENT: Dwelling Addition - Verandah
DECISION: Development Approval Granted
DATE OF DECISION: 05/03/2013

DEVELOPMENT PLAN CONSENT

GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

Conditions of Consent:

- (1) The development shall be constructed and maintained in accordance with the plans and details submitted with and forming part of Development Application No.100/172/2013 except when varied by the following conditions of consent.
- (2) The structure shall not be enclosed on any side with any solid material, roller door, or the like at any time unless the further development approval of the Council is obtained.
- (3) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (4) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (2) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

- (1) The proposed development must:
- be substantially commenced within twelve months from the date full Development Approval is granted; and
 - be completed within three years of full Development Approval being granted
- noting that the operative date of any consent or approval, is subject to any appeal where applicable being finally determined.

NO WORK CAN COMMENCE ON THIS DEVELOPMENT UNLESS A DEVELOPMENT APPROVAL HAS BEEN OBTAINED. IF ONE OR MORE CONSENTS HAVE BEEN GRANTED ON THIS NOTIFICATION FORM, YOU MUST NOT START ANY SITE WORKS OR BUILDING WORK OR CHANGE THE USE OF THE LAND UNTIL YOU HAVE ALSO RECEIVED NOTIFICATION OF A DEVELOPMENT APPROVAL.

BUILDING RULES CONSENT CONDITIONS

- 1 The stormwater shall be disposed of in such a manner that it does not flow or discharge onto land of adjoining owners or lie against any building or create unsanitary conditions.
- 2 The development shall be undertaken in accordance with the Council approved Development Plan Consent plans and conditions subject only to the variations specified in the Schedule 22A – Certificate of Consistency.

BUILDING RULES CONSENT NOTES

- 1 Notification by the owner must be given to the Council at the following stages:
 - one business day's notice of the intended commencement of building work on the site, and
 - one business days notice of the completion of the building work.

Council may have a requirement to be notified at other stages of construction. It is strongly recommended you read all documentation from Council to ensure you do not commit an offence under the Development Act 1993.
- 2 All members of the community have a general environmental duty under the Environment Protection Act. The Environment Protection Agency Code of Practice for the Building and Construction Industry provides benchmarks of best practice and contains certain mandatory provisions for preventing contaminants entering the stormwater system.
- 3 Where a domestic building work contract > \$12,000 is to be entered into with a builder or if the owner is a licensed builder, the owner must, pursuant to Regulation 21 of the Development Regulations 1993, ensure that a Certificate of Indemnity Insurance is lodged with **Professional Building Services Australia** on or before three business day's of the commencement of the building work.
- 4 This Consent does not, and shall not, be constructed to signify Professional Building Services Australia's approval of any building or structure which is, or may be subject to the provisions of the Electricity Trust of South Australia's Regulations controlling building or development within prescribed distances of overhead power supply lines, or alternatively, underground power supply lines. For further information contact the Electricity Trust of South Australia.
- 5 The building owner who proposes to carry out any excavation or filling of a nature prescribed in Regulation 75 of the Development Regulations 1993 shall serve upon the adjoining owner a notice of his intention to perform that work as required by Section 60 of the Development Act. That is any work close to or on a boundary and likely to affect any adjoining land or building.

DEVELOPMENT APPLICATION NUMBER:	100/1676/2012
APPLICANT:	Weeks & Macklin Homes
LOCATION:	39 Woodend Road SHEIDOW PARK 5158 Lot: 2 DP: 82305 CT: 6044/322
DESCRIPTION OF DEVELOPMENT:	To construct a single-storey detached dwelling
DECISION:	Development Approval Granted
DATE OF DECISION:	05/11/2012

DEVELOPMENT PLAN CONSENT

● GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

Conditions of Consent:

- (1) The development shall be constructed and maintained in accordance with the plans and details submitted with and forming part of Development Application No.100/1676/2012 (being drawing number(s) WD01 prepared by Weeks Macklin Homes, received by Council on 10/10/2012) except when varied by the following conditions of consent.
- (2) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (3) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.
- (4) The carport shall not be enclosed on the eastern elevation, unless the further development approval of the Council is obtained.

- (5) Where the driveway crosses the front boundary, the finished ground level shall be between 50mm and 150mm above the top of kerb.
- (6) All car parking areas, driveways and vehicle manoeuvring areas must be constructed, sealed and drained in accordance with recognised engineering practices prior to the occupation of the premises or the use of the development herein approved.
- (7) All stormwater from buildings and paved areas shall be disposed of in accordance with the approved plans and details prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (8) The driveway level within the road reserve shall match the level of the top stones of the sewer and drainage manholes. The manhole covers shall remain accessible at all times (i.e. paving is to surround the top stones).

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) Noise from devices and/or activities on the subject site should not impair or impinge on the amenity of neighbours at any time. The Environment Protection Authority has restrictions relating to the control of noise in the urban environment. Further information is available by phoning the Environment Protection Authority on 8204 2000.
- (2) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (3) Dust emissions from the site during construction shall be controlled by a dust suppressant or by watering regularly to the reasonable satisfaction of the Council.

- (4) All runoff and stormwater from the subject site during the construction phase must be either contained on site or directed through a temporary sediment trap or silt fence, prior to discharge to the stormwater system, to the reasonable satisfaction of the Council. (Acceptable ways of controlling silt and runoff during construction can be found in the Stormwater Pollution Prevention Code of Practice issued by the Environment Protection Authority).
- (5) Measures to prevent silt and mud from vehicle tyres and machinery being transported onto the road shall be installed and maintained at all times during the construction phase of the development, to the reasonable satisfaction of the Council. (A suggested measure is to install a gravelled construction exit with wash down facilities).
- (6) The proposed crossover/access must be constructed a minimum of one (1) metre clear of all infrastructure, at its closest point, including but not limited to, street trees, stobie poles, SEP's, pram ramps etc.
- (7) Any portion of Council's infrastructure damaged as a result of work undertaken on the allotment or associated with the allotment must be repaired/reinstated to Council's satisfaction at the developer's expense.
- (8) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (9) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (10) Council requires at least one business days notice of the following stages of building work:-
 - a) prior to the placement of any concrete for footings or other structural purposes (Note - Where an engineer carries out an inspection, Council will also require a copy of the inspection certificate); and
 - b) at the completion of wall and roof frames prior to the fixing of any internal linings.

- (11) On completion of building work, the Development Act requires that a signed Statement of Compliance from the licensed builder be provided to the relevant authority declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 2008).

Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

**(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website www.marion.sa.gov.au).*

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

- (1) The proposed development must:
- be substantially commenced within twelve months from the date full Development Approval is granted; and
 - be completed within three years of full Development Approval being granted
- noting that the operative date of any consent or approval, is subject to any appeal where applicable being finally determined.

BUILDING WORK:	DWELLING AND CARPORT
SITE ADDRESS:	LOT 2 (NO.39) WOODEND ROAD SHEIDOW PARK
APPLICANT:	WEEKS & MACKLIN HOMES
OWNER:	R ASHLEY AND C GOODWIN
CLASSIFICATION:	1a & 10a
DEVELOPMENT NO:	100/1676/2012

UNCONDITIONAL CONSENT

Notes

The certified drawings/ documents will be issued by the Council with the notification of development approval.

This consent is issued on the understanding that the proprietary type materials and products as specified either on the architectural plans or specification are to be selected and installed in accordance with the manufacturers recommendations and relevant standards

The Certificate from Ginos & Associates (Job No. 42026; Dated October 9 2012) certifying that the "Steel Building Systems International" materials and form of construction will comply with the provisions of Building Code of Australia P2.1 has been accepted and relied upon pursuant to Regulations 85 & 88.

Set-off dimensions shall be from the allotment boundaries and not necessarily the fence lines.

No portion of the building or structure (including footings and drainage) shall extend over the property boundary (unless agreement has been obtained from the adjoining property owner)

For building work prescribed in regulation 75, the building owner, must, at least 28 days before the building work is commenced cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work, as required by Section 60.

The person proposing to undertake building work (or who is in charge of such work) is warned of their obligation to give the Council notice at stages prescribed in Regulation 74. These include 1 business days notice of -:

- intended commencement of building work. Notice must include information on the persons who are proposed to sign the Regulation 83AB Statement of Compliance (where applicable),
- completion of all roof framing. Notice must be accompanied within 1 business day by a completed registered building work supervisors checklist relating to the roof framing and the subject roof framing must not be concealed for 2 business days,
- completion of building work, and
- other stages specified by Council

A person must not occupy a Class 1a building under the Building Code that has been completed in accordance with the development authorisation insofar as it relates to the performance of building work unless it complies with the requirements of Regulation 83A.

Regulation 83AB requires a *Statement of Compliance* for Class 1a buildings to be provided upon completion to the relevant authority by the licensed building work contractor who has carried out the relevant work, or who was in charge of carrying out the relevant work, to which the statement relates all in accordance with the attached pro-forma, which must also be signed by the owner of the relevant land, or by someone acting on his or her behalf.

Where within 1 km of the coast or 10km of a surf coast or within a heavy industrial area all steel, concrete and mortar shall be appropriately protected against corrosion (including structural steel members, lintels, roof, wall and floor framing, metal roof and wall sheeting, ties, connectors, straps, fixings, reinforcement, rods, etc)

The location, design and capacity of the stormwater discharge at the property alignment should be approved by council prior to siteworks commencing. The drainage system should be completed by the finish of construction of the building. (Clause 5.5.3 of AS 2870)

The method of stormwater disposal must not result in the entry of water into any building or on to the land of any adjoining owner without their consent.

AS3660.1- 'Termite Management - New Building Work', sets out methods for minimising the risk to new buildings from damage to their structural members by subterranean termites by deterring concealed entry by termites from the soil to the building. A termite barrier system constructed in accordance with this standard can not prevent termite attack, as barriers may be bridged or breached. Where termites bridge barriers the evidence may be detected during inspections which need to be carried out at intervals not exceeding 12 months to reduce the risk of termite damage. A durable notice shall be permanently fixed to the building in a prominent location such as a meter box or the like indicating the method of protection; and the date of installation of the system; and where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label; and the need to maintain and inspect the system on a regular basis. The owner may also wish to seek advice regarding the potential for attack by termites to non-primary structural elements of the building and the precautions available.

The footings have not been designed to take into account the effect of existing trees or planted trees located within a distance less than their zone of influence from the building whether they are on or outside of the allotment. If clarification is required, refer to the footing construction report or seek advice from the engineer.

The footings have only been checked for compliance with the minimum allowable requirements prescribed in AS2870. The owner is advised to refer to the footing construction report or seek advice from the engineer in this matter.

The owners attention should be drawn to Appendix B of AS 2870 'Performance Requirements and Foundation Maintenance'

Particular care should be exercised to ensure that the plumbing and perimeter paving is installed in accordance with the requirements of AS 2870 and engineers details.

The articulation or control joints in the masonry walls shall be installed in accordance with the Site Investigation and Footing Construction Report

Wet area details including floor grades, set-downs and water resistant surfaces shall comply with Minister's Specification SA F1.7-May, 2012, AS3740-2010, BCA Table 3.8.1.1 and BCA Clause SA 3.2.2

All glazing shall be glazed in accordance with AS1288- 2006, including safety glass for full height windows, glazed doors, side panels and windows located over or adjacent to a bath/shower.

The required rainwater tanks to be plumbed into the dwelling in accordance with AS3500 must be provided with an overflow device connected into the stormwater disposal system and mosquito proof, non-degradable screens on the inlet and overflow. Supporting structures must be a proprietary product and / or comply with relevant Australian Standards

The hot water system/heated water service must be designed and installed in accordance with the Waterworks Act 1932, the Waterworks Regulations 1996 and Directions issued by SA Water Corp and Part SA 3.12.5.6 of Volume 2 of the BCA which prescribes minimum energy efficiency levels.

This consent is based on the understanding that there are no brush fences within 3m of the proposed building works.

This report does not imply compliance with the Electricity Act, 1996 as amended or the regulations thereunder (including Regulations prescribed for purposes of Section 86) or the Occupational Health, Safety & Welfare Act 1986 or the regulations thereunder. It is the responsibility of the applicant, owner and the person erecting the building to ensure compliance with same.

Land Tax Act 1936

CERTIFICATE OF LAND TAX PAYABLE**PAYMENT REMITTANCE ADVICE****No payment is required on this Certificate**

OFFICIAL: Sensitive

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
