2	2	2
3	1	1

Minimum Lot Size and Frontage Required
for unit development

N/A

Dual occupancy developments can be supported on lots that area larger than 700m2 in size.

How high can you build on this property?

Maximum Prescribed Height

N/A

Maximum Height Prescribed
8.5m above Natural Ground Level

and 8.5m above Natural Ground Level

10m is allowable where the slope is greater than 15%.

Other planning restrictions?

Maximum Gross Floor Area/Plot Ratio

N/A

Maximum Gross Floor Area/Plot Ratio Prescribed
N/A

Maximum Site Coverage

50%

Maximum Site Coverage Prescribed
50% of the total site area

Maximum Density (per Hectare)

25

Maximum Density Prescribed (per Hectare)
25 per hectare

Where for a Relocatable home park, Residential care facility or Retirement facility, no maximum density. The density is measured in 'equivalent dwellings' as per the following: - a one bedroom dwelling equals 0.5 equivalent dwellings; - a two bedroom dwelling equals 0.7 equivalent dwellings; and - a dwelling with three or more bedrooms equals 1 equivalent dwelling.

Acid Sulfate Soils Overlay

The purpose of code is to ensure that acid sulfate soils do not adversely affect the natural and built environment and human health and safety.

Development: avoids the disturbance of acid sulfate soils; or protects ecosystems, the built environment and personal health and safety by managing any disturbed acid sulfate soils and associated drainage waters.

Please refer to mapping for the identification of this overlay.

Potential Cautions

180 River hills road, EAGLEBY, 4207

Residential Overlay

N/A

Flood Hazard Overlay

The purpose of the Flood hazard overlay code is to ensure development: is compatible with the nature of the natural flood hazard; does not cause injury, loss of life or damage to premises and property due to flooding or storm tide inundation; and does not increase the emergency management burden on neighbours, the community or the local government.

Please refer to mapping for identification of this overlay. The Flood Hazard overlay may negatively impact upon the development potential of a property and reduce the potential yield.

Stormwater pits

Existing water mains

Additional general requirements

(Note, any information following are general provisions that may be altered by the zoning, neighbourhood plan and/or overlays of a site)

Prescribed setbacks for a Multiple Unit Dwelling
