Fact Sheet: ASBESTOS & THE HEALTH RISKS

This Fact Sheet gives a brief overview of asbestos and the potentially significant risks that relate to asbestos exposure.

What is Asbestos?

Asbestos is a naturally-occurring mineral and is found in rock, sediment or soil in a very few areas within [South Australia](#). It was mined in these areas until its ban in 1983. Asbestos can also be naturally found in the environment and is referred to as naturally occurring asbestos (NOA). Most NOA is found in Western Australia.

Asbestos has strong fibres that are heat resistant and have good insulating properties which has led to its historical use mainly in cement water pipes and cement sheeting in buildings. It is also found in brake pads and pipe lagging and in flooring materials.

Asbestos is categorised into two types based on the level of risk to health:

Non-friable asbestos

A product that contains asbestos fibres that have been mixed with other materials, such as cement. Non-friable asbestos in good condition poses a negligible risk to health as it is unlikely to produce airborne fibres.

Friable asbestos

A material that contains asbestos that can be easily crumbled or reduced to powder, such as insulation by hand pressure.

Friable asbestos is considered to pose the **greater health risk** because loose fibres from it are more likely to become airborne when disturbed.

Exposure to asbestos may occur during work activities particularly if they are in contact with or close to asbestos-containing materials that:

- have been damaged such as by fire, drilling, sanding, cutting or smashing
- are involved in building or maintenance work
- are being demolished or removed
- are being weathered

As a general rule if a house was built:

- before the mid-1980s it is highly likely that it has asbestos-containing products
- between the mid-1980s and 1990 it is likely that it has asbestos containing products
- after 1990 it is unlikely that it has asbestos-containing products*

Asbestos and cancer

Asbestos is extremely fibrous, and the tiny fibres are easily breathed in where they can become trapped in the lungs. Being exposed to asbestos increases the risk of developing cancers of the [lung](#), [ovary](#) and larynx as well as [mesothelioma](#) (cancer of the lining of the lung). These cancers often develop decades after exposure to asbestos. Your cancer risk from asbestos varies, depending upon the:

- length of time you are exposed to airborne asbestos fibres
- amount of asbestos fibres in the air breathed
- frequency of exposure to asbestos fibres
- time since exposure occurred
- age at which exposure occurred
- type and size of asbestos fibres.

Those most likely to have been exposed to asbestos in the workplace include transport workers (particularly waterside workers), asbestos miners and millers, asbestos cement manufacturing workers, builders, plumbers, insulators, electricians and mechanics.

Today, all states and territories in Australia have work health and safety laws that explain duty of care for employers and workers' responsibilities to reduce the risk of asbestos exposure.

What should I do if I have found suspected asbestos material or suspect I have been exposed to asbestos?

- ensure you know the build date of the building you are in to verify if asbestos is present
- remove yourself from the material and the building, advise others to do the same
- immediately notify your Manager once clear of the material
- maintenance processes are to be commenced in regard to isolating and testing the material
- consider contacting the Work Health & Safety (WHS) Advisor 0427 931 838
- record the incident on the [Hazard / Incident Reporting System](#) (MySAFETY).

FORM 1 - Vendor's Statement

(Section 7 Land and Business (Sale and Conveyancing) Act 1994)

Contents

Preliminary
Part A – Parties and land
Part B – Purchaser's cooling off rights and proceeding with the purchase
Part C – Statement with respect to required particulars
Part D – Certificate with respect to prescribed inquiries by registered agent
Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

PART B – PURCHASER'S COOLING-OFF RIGHTS AND PROCEEDING WITH THE PURCHASE

To the purchaser:

Right to cool-off (section 5)

1 – Right to cool-off and restrictions on that right

You may notify the vendor of your intention not to be bound by the contract for the sale of the land UNLESS–

- (a) you purchased by auction; or
- (b) you purchased on the same day as you, or some person on your behalf, bid at the auction of the land; or
- (c) you have, before signing the contract, received independent advice from a legal practitioner and the legal practitioner has signed a certificate in the prescribed form as to the giving of that advice; or
- (d) you are a body corporate and the land is not residential land; or
- (e) the contract is made by the exercise of an option to purchase not less than 5 clear business days after the grant of the option and not less than 2 clear business days after service of this form; or
- (f) the sale is by tender and the contract is made not less than 5 clear business days after the day fixed for the closing of tenders and not less than 2 clear business days after service of this form; or
- (g) the contract also provides for the sale of a business that is not a small business.

2 – Time for service

The cooling-off notice must be served–

- (a) if this form is served on you before the making of the contract– before the end of the second clear business day after the day on which the contract was made; or
- (b) if this form is served on you after the making of the contract– before the end of the second clear business day from the day on which this form is served.

However, if this form is not served on you at least 2 clear business days before the time at which settlement takes place, the cooling-off notice may be served at any time before settlement.

3 – Form of cooling-off notice

The cooling-off notice must be in writing and must be signed by you.

4 – Methods of service

The cooling-off notice must be–

- (a) given to the vendor personally; or
- (b) posted by registered post to the vendor at the following address:

GPO BOX 1669, ADELAIDE, SOUTH AUSTRALIA, 5001

(being the vendor's last known address); or

- (c) transmitted by fax or email to the following fax number or email address:

FAX: 08 8267 4998 OR EMAIL: AFOX@FOXREALESTATE.COM.AU

- (d) left for the vendor's agent (with a person apparently responsible to the agent) at, or posted by registered post to the agent at, the following address:

192 MELBOURNE STREET NORTH ADELAIDE SA 5006

(being ~~*the agent's address for service under the Land Agents Act 1994~~ an address nominated by the agent to you for the purpose of service of the notice).

Note–

Section 5(3) of the *Land and Business (Sale and Conveyancing) Act 1994* places the onus of proving the giving of the cooling-off notice on the purchaser. It is therefore strongly recommended that –

- (a) if you intend to serve the notice by leaving it for the vendor's agent at the agent's address for service or an address nominated by the agent, you obtain an acknowledgment of service of the notice in writing; or
- (b) if you intend to serve the notice by fax or email, you obtain a record of the transmission of the fax or email.

5 – Effect of service

If you serve such cooling-off notice on the vendor, the contract will be taken to have been rescinded at the time when the notice was served. You are then entitled to the return of any money you paid under the contract other than–

- (a) the amount of any deposit paid if the deposit did not exceed \$100; or
- (b) an amount paid for an option to purchase the land.

Proceeding with the purchase

If you wish to proceed with the purchase—

- (a) it is strongly recommended that you take steps to make sure your interest in the property is adequately insured against loss or damage; and
- (b) pay particular attention to the provisions in the contract as to time of settlement - it is essential that the necessary arrangements are made to complete the purchase by the agreed date - if you do not do so, you may be in breach of the contract; and
- (c) you are entitled to retain the solicitor or registered conveyancer of your choice.

- (1) A community corporation must (on application by or on behalf of a current or prospective owner or other relevant person) provide the particulars and documents referred to in 3(a)-(c) and 4 and must also make available for inspection any information required to establish the current financial position of the corporation, a copy of any contract with a body corporate manager and the register of owners and lot entitlements that the corporation maintains: see sections 139 and 140 of the *Community Titles Act 1996*.
- (2) Copies of the scheme description, the development contract or the by-laws of the community scheme may be obtained from the community corporation or from the Lands Titles Registration Office.
- (3) All owners of a community lot or a development lot are bound by the by-laws of the community scheme. The by-laws regulate the rights and liabilities of owners of lots in relation to their lots and the common property and matters of common concern.
- (4) For a brief description of some of the matters that need to be considered before purchasing a community lot, see Division 3 of this Schedule.

SCHEDULE - DIVISION 3

COMMUNITY LOTS AND STRATA UNITS

Matters to be considered in purchasing a community lot or strata unit

The property you are buying is on strata or community title. There are **special obligations and restrictions** that go with this kind of title. Make sure you understand these. If unsure, seek legal advice before signing a contract. For example:

Governance

You will automatically become a member of the **body corporate**, which includes all owners and has the job of maintaining the common property and enforcing the rules. Decisions, such as the amount you must pay in levies, will be made by vote of the body corporate. You will need to take part in meetings if you wish to have a say. If outvoted, you will have to live with decisions that you might not agree with.

If you are buying into a mixed use development (one that includes commercial as well as residential lots), owners of some types of lots may be in a position to outvote owners of other types of lots. Make sure you fully understand your voting rights, see later.

Use of your property

You, and anyone who visits or occupies your property, will be bound by rules in the form of **articles or by-laws**. These can restrict the use of the property, for example, they can deal with keeping pets, car parking, noise, rubbish disposal, short-term letting, upkeep of buildings and so on. Make sure that you have read the articles or by-laws before you decide whether this property will suit you.

Depending on the rules, you might not be permitted to make changes to the exterior of your unit, such as installing a television aerial or an air-conditioner, building a pergola, attaching external blinds etc without the permission of the body corporate. A meeting may be needed before permission can be granted. Permission may be refused. Note that the articles or by-laws **could change** between now and when you become the owner: the body corporate might vote to change them. Also, if you are buying before the community plan is registered, then any by-laws you have been shown are just a draft.

Are you buying a debt?

If there are unpaid contributions owing on this property, you can be made to pay them. You are entitled to **know the financial state of the body corporate** and you should make sure you see its records before deciding whether to buy. As a prospective owner, you can write to the body corporate requiring to see the records, including minutes of meetings, details of assets and liabilities, contributions payable, outstanding or planned expenses and insurance policies. There is a fee. To make a request, write to the secretary or management committee of the body corporate.

Expenses

The body corporate can **require you to maintain your property**, even if you do not agree, or can carry out maintenance and bill you for it.

The body corporate can **require you to contribute** to the cost of upkeep of the common property, even if you do not agree. Consider what future maintenance or repairs might be needed on the property in the long term.

Guarantee

As an owner, you are a **guarantor** of the liabilities of the body corporate. If it does not pay its debts, you can be called on to do so. Make sure you know what the liabilities are before you decide to buy. Ask the body corporate for copies of the financial records.

Contracts

The body corporate can make contracts. For example, it may engage a body corporate manager to do some or all of its work. It may contract with traders for maintenance work. It might engage a caretaker to look after the property. It might make any other kind of contract to buy services or products for the body corporate. Find out **what contracts the body corporate is committed to and the cost**.

The body corporate will have to raise funds from the owners to pay the money due under these contracts. As a guarantor, you could be liable if the body corporate owes money under a contract.

Buying off the plan

If you are buying a property that has not been built yet, then you **cannot be certain** what the end product of the development process will be. If you are buying before a community plan has been deposited, then any proposed development contract, scheme description or by-laws you have been shown could change.

Mixed use developments - voting rights

You may be buying into a group that is run by several different community corporations. This is common in mixed use developments, for example, where a group of apartments is combined with a hotel or a group of shops. If there is more than one corporation, then you should not expect that all lot owners in the group will have equal voting rights. The corporations may be structured so that, even though there are more apartments than shops in the group, the shop owners can outvote the apartment owners on some matters. Make enquiries so that you understand how many corporations there are and what voting rights you will have.

- (b) A Lotholder (including a mortgagee in possession) must pay on demand:-

 - (ii) such costs as may have been ordered to be paid by the Lotholder to the Corporation by any Court, Tribunal or body with authority to order the payment of costs.
- (c) The Corporation may also enter any costs payable to it as referred to in paragraph 22(b) above against the levy account of the Lotholder's Lot and note the amount of such costs on any certificate issued in respect of the Lot pursuant to the *Real Property Act 1886* (SA).
- (d) The Corporation may charge interest on any overdue monies owed by a Lotholder at an annual rate as determined by the Corporation from time to time, unless otherwise determined by Ordinary Resolution at a general meeting. - (c) The Corporation may attach such conditions to a permit as it thinks fit and may vary or revoke such conditions or impose new conditions by notice in writing to the permit holder.

27. Tenants to have notice of By-Laws

A copy of these By-Laws (or a précis thereof approved by the Committee) will be delivered to the Lessee or occupier of a Lot not personally occupied by the Lotholder, and in any event incorporated as an annexure to any Lease or Licence granted to a Lessee or occupier.

28. Severability

If any By-Law or any part of these By-Laws cannot be given effect or full force and effect by reason of statutory invalidity or otherwise, such By-Law or part By-Law which cannot be given effect or its full force and effect shall be severed, ignored or read down restrictively but so as to maintain and uphold as far as possible the remaining By-Laws.

- (b) The Corporation shall be entitled to commence action to have any vehicle parked or standing in contravention of these By-Laws removed at the expense of the person whose act or default has caused the contravention and that person shall indemnify the Corporation in respect of all claims for costs and damages arising out of such actions.
- (c) A person driving a vehicle on the Common Property must comply with the rules applicable under the *Road Traffic Act 1961* (SA) to the driving of a vehicle on a public road.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Dear Sir/Madam

Re: *Land and Business (Sale and Conveyancing) Act 1994 - Section 7 Enquiry*
Property at 73 Drayton Street, Bowden
Registered Proprietor(s): SA Housing Trust

I refer to your enquiry to the Department for Housing and Urban Development (DHUD) concerning the parcel of land comprised in Certificate of Title Volume 6307 Folio 192 and the subsequent Property Interest Report (PIR) issued. (Reference No. 2715336 dated 26/9/25).

Items 29.10 and 29.11 the PIR indicate that the State Planning Commission (SPC) will respond with details of a possible requirement under Section 198 (1) or agreement under Section 198 (2) of the *Planning, Development and Infrastructure Act 2016* respectively to vest land in a council or the Crown to be held as open space.

I therefore advise that a land division proposal 252/C572/23 (ID 23029599) recorded against this Certificate of Title has been carried on, in error, from a previous title for the property. There is no proposed land division over lot 563 in CP 43324 and accordingly Section 198 of the *Planning, Development and Infrastructure Act* does not apply.

The Department for Housing and Urban Development records will be amended to remove the reference from the above Certificate of Title.

In addition, Section 50 of the *Development Act 1993 (repealed)* does not apply (refer items 5.2 and 5.3 of the PIR).

Yours faithfully

Strata Data recommends that the body corporate make adequate provision for future expenditure through Sinking fund forecasts and a 5 year future maintenance plan. It is expected that recurrent maintenance costs will increase each year as the normal expenses of the corporation such as insurance, management, services and maintenance costs generally rise. Funds collected toward general maintenance or the unforeseen expense provision, if not spent within the financial year add to the corporations balance to deal with maintenance issues in future periods.

Owners are recommended to think of the ongoing maintenance required in relation to the common area over this and the next 3-5 years when making a decision concerning the levies to be raised.
